L

Woolly Wagon Company  
5027 SF 107th Street  
Bellevue, WA 98008

**NOT AVAILABLE COPY**

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 47867-2" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Do not apply directly to food. In commercial food handling facilities, cover or remove any food and food processing equipment during application. Do not apply while food processing is under way. After space spraying in bakeries and other food processing plants, wash all equipment with potable water, benches, shelving, etc., where exposed food will be handled. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use.

Remove pets and birds, and cover fish aquariums before spraying.

PESTICIDE DISPOSAL

CONTAINER DISPOSAL

according to label instructions; must be disposed of according to applicable Federal, State or Local procedures.

Container Disposal: Triple rinse (or equivalent) and offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and Local procedures.

Space Spray to Kill Houseflies, Mosquitoes, Gnats and <sup>SMALL</sup>Flying Moths: Shake container gently to be sure contents are uniformly mixed. Pour in sprayer. Close doors and windows and turn off ventilation equipment. Mist all parts of the room or area at a dosage of one fluid ounce of dilute spray per 1,000 cubic feet of space. Vacate premises. Keep room closed for 15 minutes. Ventilate prior to re-entry. Repeat as necessary. (8)

Contact Spray to Kill Cockroaches, Waterbugs, Crickets, Centipedes, Spiders, Ants, Sowbugs and Exposed Forms of Crawling Grain Pests listed. Shake container gently as above. Apply as a coarse spray to all cracks and crevices in woodwork, beneath sinks, dark places behind pipes and in all places where these insects rest, contacting as many insects as possible with the spray. Repeat applications as often as necessary to gain control. For grain weevils, cadelles, grain moths, confused flour beetles, saw-toothed grain beetles, and grain mites, apply as a coarse spray to all infested surfaces, insect hiding places and insect runways at the rate of one gallon of dilute spray on 750 square feet of area. Treat ant trails. Repeat when necessary. (9)

Contact Spray to Kill Fleas and Brown Dog Ticks: Spray infested areas such as pet resting places and areas of floor and floor coverings (such as carpet) where these pests may be present. Use at the rate of one gallon per 750 square feet of area to be treated. Old pet bedding should be discarded and replaced with clean fresh bedding after treatment. Do not apply directly to pet. Repeat as needed. (10)
