STORAGE AND DISPOSAL

STORAGE

Store in well ventilated, cool, secure area away from heat, flame, sparks, electrical equipment or other ignition sources.

EMPTYING DRUMS

Electrically ground drum. The best procedure is to displace the contents with an inert gas. Care must be taken to see that no appreciable pressure is exerted on the drum. A pressure relief device set for several inches of water should be installed on the inert gas line. For details, read the brochure "Propylene Oxide" available from this company.
