DIRECTIONS

To protect from decay, mildew, termites, and powder post beetles treat wood as follows.

For wood above ground with low decay exposure, such as exterior siding fencing pickets or wooden shakes, apply using two brush coats, or a spray, or a three minute dip.

Green or dry wood may be treated. Pigments or dyes may be added to the treating solution to provide a desired appearance to treated surfaces.

Treat wood outdoors and use treated wood only for exterior applications. Do not use treated wood where there may be extended periods of skin contact or contact with food or feed.

PESTICIDE DISPOSAL - Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent) metal container. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary land fill, or by other procedures approved by state and local authorities.
