

**KEEP OUT OF REACH OF CHILDREN
DANGER**

FIRST AID: If on skin, wash with plenty of soap and water. If in eyes, flush with water for at least 15 minutes. Get medical attention. If swallowed, drink large quantities of milk, or gelatin solution or, if these are not available, drink large quantities of water. Do not give vomiprin or other acids. Do not induce vomiting. Get prompt medical attention.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive, may cause severe skin irritation or chemical burns to broken skin. Causes eye damage. May be fatal if swallowed. Avoid breathing vapors. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash hands after handling. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams or ponds. Treated effluent cannot be discharged into lakes, streams, ponds or public waters unless a discharge permit is obtained. For guidance, contact the regional office of the Environmental Protection Agency.

PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT. Mix only with water according to label directions. Mixing this product with gross filth such as feces, urine, etc. or with ammonia, acids, detergents or other chemicals will release hazardous gases irritating to eyes, lungs and mucous membranes.

EPA REG. NO. 100-100-0102
EPA EST. NO. 100-100-0102

DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS FOR SWIMMING POOL CHLORINATION

For a new pool, start with one (1) pint (16 fluid oz.) of sodium hypochlorite solution for each 2500 gallons of water. This dosage is equivalent to 5 ppm available chlorine by weight.

FOR POOL MAINTENANCE

A) Adjust pool water pH to 7.2-7.6 and maintain.
B) Determine pH by a test kit or test strip.
C) Determine available chlorine residual.
D) Add 1.0 ppm available chlorine per 10,000 gallons of water will provide 1.0 ppm available chlorine by weight. Frequency of additions to maintain 0.6 to 1.0 ppm available chlorine will depend on temperature and number of swimmers. Use test kit to measure the pH and chlorine residual in the proper range.

NOTE: This product is used with a test kit and a test strip. Do not use with a test kit or test strip.

STORAGE AND DISPOSAL: Store in a cool, dry area away from direct sunlight. Avoid spill. Flood area with large quantities of water. Rinse thoroughly with water and either return to manufacturer, contact local health department for collection or burying in an approved landfill. Containers that cannot be used, should be diluted with water and discharged into a sanitary sewer. Do not contaminate food or feed, or drain, ditches, or watering or equipment.
