US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. <b>48242-2</b>	DATE OF ISSUANCE <b>JUN 30 1994</b>
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREGISTRATION <i>(Under the Federal Insecticide, Fungicide,          and Rodenticide Act, as amended)</i>	NAME OF PESTICIDE PRODUCT <b>Ram Pool Chemicals Tablets</b>	
NAME AND ADDRESS OF REGISTRANT (Include ZIP code)		
Ram Chemical & Supply 9836 Clay Road Houston, TX 77080		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
<p>Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.</p> <p>Make the following labeling changes before you release the product for shipment:</p> <ol style="list-style-type: none"> <li>1. Revise the precautionary and practical treatment statements in your labeling in accordance with the enclosed Attachment A.</li> <li>2. The CSf should cite the upper and lower certified limits for the active ingredient in columns 14(a) and 14(b), and the purpose of the active ingredient in column 15.</li> </ol> <p>A stamped copy of the product label is enclosed for your records.</p>		
<input type="checkbox"/> ATTACHMENT IS APPLICABLE		
SIGNATURE OF APPROVING OFFICIAL		DATE

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

ISOCYANURATE RED ATTACHEMENT A

**LABELING:** (Statements are based on review of referenced acute toxicity data)

1. The signal word is "DANGER"

2. Revise the Precautionary Statements to read:

**CORROSIVE:** Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

3. Revise the Statement of Practical Treatment to read:

**STATEMENT OF PRACTICAL TREATMENT.**

**IF SWALLOWED:** Drink promptly large quantities of water. Do not induce vomiting. Avoid alcohol. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

**IF IN EYES:** Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

**IF ON SKIN:** Wash with plenty of soap and water. Get medical attention.

**IF INHALED:** Remove victim to fresh air. If not breathing, give artificial respiration, preferably, mouth-to-mouth. Get medical attention.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage.

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING

AND PRECAUTIONARY STATEMENTS:  
**DANGER**  
KEEP OUT OF  
REACH OF CHILDREN

**DIRECTIONS FOR USE:** Before using, adjust stabilizer to 40-60 ppm with RAM STABILIZER. Put approximately 12 tablets per 10,000 gallons by placing either into your swimming pool floating dispenser or directly into skimmer basket. Use more or less TABLETS in order to maintain a free chlorine residual of 1.0 to 1.5 ppm. This product can be used in any dispenser or automatic chlorinator that uses chlorine concentrate 1" TABLETS, 3" tablets or sticks. DO NOT MIX with any other kind of chlorine as an explosion may occur. DO NOT THROW TABLETS directly into or on a vinyl or fiberglass pool as bleaching may result. See below for superchlorination.

**START UP:** When starting up a reopened or freshly filled pool or spa make sure the filtration system is clean and operating properly. Then adjust and maintain the pH in the range of 7.4-7.6 using RAM pH MINUS or RAM pH PLUS as indicated by a reliable test kit. Adjust and maintain total alkalinity 80-125 ppm (spas 140-180 ppm). Next day stabilize between 40-60 ppm using RAM STABILIZER at about 1 lb. per 5,000 gallons (Not required for spas). Bring chlorine reading up to 3.5 to 5 ppm by superchlorination. Next day apply this concentrate chlorine as directed. Do not use pool (or spa) until the chlorine residual has dropped below 3.0 ppm.

**SUPERCHLORINATION:** Use 1 lb. SHOCK per 10,000 gallons, every 10 to 14 days by broadcasting in pool (Gunite only). DO NOT put into skimmers as other chemicals may be present. This procedure may be necessary more often if algae appears, eye burns, chlorine odors, heavy rains, higher bather loads or hotter pool water are present.

Reentry into treated swimming pool/spas is prohibited above levels of 3 ppm of chlorine.
