**DIRECTIONS FOR USE
 GENERAL CLASSIFICATION**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

CRYSTALENE 18 Booster is used to control the growth of algae in swimming pools, exterior spas, whirlpools, and hot tubs. For maximum effectiveness pools, spas, whirlpools, and hot tubs containing heavy growth of algae should be cleaned prior to using CRYSTALENE 18 Booster.

For pools having just visible algae growth add an initial dose of 50 to 77 fluid ounces of CRYSTALENE 18 Booster per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool add initially 27 to 50 fluid ounces of CRYSTALENE 18 Booster per 10,000 gallons of water. Subsequent additions of 9 to 18 fluid ounces of CRYSTALENE 18 Booster per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

Spas, whirlpools, or hot tubs having just visible algae growth require an initial dose of 5 to 8 fluid ounces of CRYSTALENE 18 Booster per 1000 gallons of water. For treatment of a freshly cleaned and filled spa, whirlpool, or hot tub, add initially 3 to 5 fluid ounces of CRYSTALENE 18 Booster per 1,000 gallons of water. Subsequent additions of 1 to 2 fluid ounces of CRYSTALENE 18 Booster should be made every 5 to 7 days after initial treatment for maintenance.

CRYSTALENE 18 Booster is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH.

CRYSTALENE 18 Booster can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix CRYSTALENE 18 Booster with concentrated dry or liquid chlorine products.
