160 / 18 | 376,216

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 2(c)(1) provided that you:

1. Submit all data required for registration/reregistration of your product under FIFRA section 2(c)(1) or 4(a) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 48498-1."
 - b. Replace the Environmental Hazards statements with the following:

This pesticide is toxic to fish and wildlife. Do not apply directly to water or wetlands (swamps, bays, marshes, and sloughs). Drift and runoff from treated areas should be avoided.

--	------------------

hazardous to aquatic organisms in neighboring areas. Do not contaminate water by cleaning of equipment or disposal of waste. Do not contaminate water when disposing of equipment washwaters.

- c. Replace the Physical or Chemical Hazards statement with the following:

Do not store, use or spill near heat or open flame. Do not weld, heat or drill containers of this product. Residues may ignite with explosive violence if sufficiently heated.

- d. Under the container disposal section, add the statement:

Return the empty tank to the supplier.

- e. Add "If Inhaled: Remove victim to fresh air and apply artificial respiration if indicated" to the Statement of Practical Treatment.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

CMR SPECIAL SUPREME OIL

ACTIVE INGREDIENT:		
Petroleum Oil	99.00%	
INERT INGREDIENTS:	1.00%	
	TOTAL	100.00%

Minimum Unsulfonated Residue -- 92%
 Petroleum Oil Classification: UNCLASSIFIED

Keep Out Of Reach Of Children
CAUTION

PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals

Caution: Harmful if swallowed, absorbed through skin, or inhaled. Avoid contact with the skin, eyes, or clothing. Avoid breathing mist. Protective clothing, including goggles, should be worn. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Call a physician or Poison Control Center. Do not induce vomiting.
If on skin: Remove contaminated clothes and shoes and immediately wash skin with soap and water. See a physician if irritation persists.
If in eyes: Immediately flush with plenty of water for at least 15 minutes. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

When this product is combined with parathion emulsive or malathion, it is toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

PHYSICAL OR CHEMICAL HAZARDS

Do not weld, heat or drill containers of this product. Residues may ignite with explosive violence if sufficiently heated.

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No.

NET CONTENTS: BULK

48498

GENERAL INFORMATION

CMR SPECIAL SUPREME OIL is a straight-cut narrow boiling range petroleum oil designated specifically for use on deciduous fruit trees.

Apply CMR SPECIAL SUPREME OIL to give total coverage to all parts of tree. Thorough drenching of trunks, limbs, twigs and leaves is essential for maximum insect control.

Use only in spray machines with powerful positive agitation. Keep agitator running at all times during spray operations. CMR SPECIAL SUPREME OIL is formulated as a "fast break" spray oil and will not stay in solution unless agitated constantly.

Mixing Directions: Fill spray tank with 1/2 the required amount of water. Start agitator. Add total amount of spray oil. Maintain agitation while adding balance of water and while spraying.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Chemigation: Do not apply this product through any type of irrigation system.

Re-Entry Statement: Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons. Do not enter treated areas without protective clothing until sprays have dried. Certain states may require more restrictive re-entry intervals for various crops treated with this product. Consult your State Department of Agriculture for further information.

Written or oral warnings must be given to workers who are expected to be in a treated area or in an area about to be treated with this product. When oral warnings are given, warnings shall be given in a language customarily understood by workers. Oral warnings must be given if there is reason to believe that written warnings cannot be understood by workers. Written warnings must include the following information: "CAUTION: Area treated with CMR SPECIAL SUPREME OIL on (date of application). Do not enter without appropriate protective clothing until sprays have dried."

Almonds, Apples, Apricots, Cherries, Nectarines, Olives, Peaches, Pears, Plums, Prunes, Walnuts: For dormant, delayed-dormant or summer sprays to control San Jose scale, brown apricot scale, Italian pear scale, parlatoria scale, oleander scale, pear psylla and mites.

Dilute Application: Apply 1-2 gallons CMR SPECIAL SUPREME OIL/100 gallons water, using up to 800 gallons water/acre.

Concentrate Applications: Apply 5-6 gallons CMR SPECIAL SUPREME OIL/acre in 50-150 gallons water.

Aerial Applications: Apply 5-6 gallons CMR SPECIAL SUPREME OIL/acre in 10-20 gallons of water.

Note: Do Not Apply to PEARS within 30 days of harvest.

5
5

Grapes: For dormant, delayed-dormant or summer sprays to control mealy bug.

Dilute Applications: In combinations with parathion emulsifiable concentrate products, apply 1 gallon CMR SPECIAL SUPREME OIL/100 gallons finish spray.

Note: Follow the precautions, restrictions, recommended use rates and specific application directions on the labels of parathion products. Use according to the most restrictive label directions of the products in the tank mixture.

CAUTION: For foliar applications, the spray tank must be free of any sulfur residue before using CMR SPECIAL SUPREME OIL. Do not combine Sulfur sprays with CMR SPECIAL SUPREME OIL and do not follow a previous application of sulfur or apply sulfur following CMR SPECIAL SUPREME OIL until sufficient time has elapsed for safety (about 30 days). If in doubt, spray a portion of one tree previously treated with sulfur, using 1 quart CMR SPECIAL SUPREME OIL to 25 gallons water. If sufficient time has not elapsed, foliar burns will develop within a few days. Do not use CMR SPECIAL SUPREME OIL when temperatures are above 90° F.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a dry location away from children, animals, foods, feeds, seeds or other agricultural chemicals. Handle in accordance with information given under "Precautionary Statements." In the event of spillage or leakage, soak up material with absorbent clay, sand, sawdust or other absorbent material and dispose in accordance with information given under "Disposal." In case of fire or other emergency, report at once by toll-free telephone to 800-424-9300.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal:

Metal Containers - Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Plastic Containers - Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
