

# KEEP OUT OF REACH OF CHILDREN CAUTION

## PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed, absorbed through skin, or inhaled. Avoid contact with the skin, eyes, or clothing. Avoid breathing mist.

**Personal Protective Equipment (PPE)**  
Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category E on an EPA chemical resistance category selections chart.

**Applicators and other handlers must wear:**  
• Long-sleeved shirt and long pants • Shoes plus socks • Protective eyewear

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

**Engineering Controls Statements**  
When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides (40 CFR 170.240(d)(4-6)), the handler PPE requirements may be reduced or modified as specified in the WPS.

**USER SAFETY RECOMMENDATIONS**  
Users should:  
• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.  
• Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.  
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

### STATEMENT OF PRACTICAL TREATMENT

**If swallowed:** Call a physician or Poison Control Center. Do not induce vomiting.  
**If on skin:** Immediately wash skin with soap and water. See a physician if irritation persists.  
**If in eyes:** Immediately flush with plenty of water for at least 15 minutes. Get medical attention if irritation persists.  
**If inhaled:** Remove victim to fresh air and apply artificial respiration if indicated.

### ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and wildlife. Do not apply directly to water or wetlands (swamps, bogs, marshes, and potholes). Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water by cleaning of equipment or disposal of waste. Do not contaminate water when disposing of equipment washwaters.

### PHYSICAL OR CHEMICAL HAZARDS

Do not store, use or spill near heat or open flame. Do not weld, heat or drill containers of this product. Residues may ignite with explosive violence if sufficiently heated.

### GENERAL INFORMATION

CMR SPECIAL SUPREME OIL is a straight-cut narrow boiling range petroleum oil designated specifically for use on deciduous fruit trees. Apply CMR SPECIAL SUPREME OIL to give total coverage to all parts of tree. Thorough drenching of trunks, limbs, twigs and leaves is essential for maximum insect control.

Use only spray machines with powerful positive agitation. Keep agitator running at all times during spray operations. CMR SPECIAL SUPREME OIL is formulated as a "last break" spray oil and will not stay in solution unless agitated consistently.

**Mixing Directions:** Fill spray tank with 1/2 the required amount of water. Start agitator. Add total amount of spray oil. Maintain agitation while adding balance of water and while spraying.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

Do not apply this product through any type of irrigation system.

**SPECIAL**

**SUPREME OIL**

**Agricultural Use Requirements**

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), and restricted entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water is:

- Coveralls
- Waterproof gloves
- Shoes plus socks
- Protective eyewear

**Almonds, Apples, Apricots, Cherries, Nectarines, Citrus, Peaches, Pears, Plums, Prunes, Walnuts:** For dormant, delayed-dormant or summer sprays to control San Jose scale, brown apricot scale, Italian pear scale, parlatoria scale, oleander scale, pear psylla and mites.

**Dilute Applications:** Apply 1 - 2 gallons CMR SPECIAL SUPREME OIL/100 gallons water, using up to 800 gallons water/acre.

**Concentrate Applications:** Apply 5 - 6 gallons CMR SPECIAL SUPREME OIL/acre in 50 - 150 gallons of water.

**Aerial Applications:** Apply 5 - 6 gallons CMR SPECIAL SUPREME OIL/acre in 10 - 20 gallons of water.

**Note:** Do Not Apply to PEARS within 30 days of harvest.

**Grapes:** For dormant, delayed-dormant or summer sprays to control mealy bug.

**Dilute Applications:** In combinations with parathion emulsifiable concentrate products, apply 1 gallon CMR SPECIAL SUPREME OIL/100 gallons finish spray.

**Note:** Follow the precautions, restrictions, recommended use rates and specific application directions on the labels of parathion products. Use according to the most restrictive label directions of the products in the tank mixture.

**CAUTION:** For foliar applications, the spray tank must be free of any sulfur residue before using CMR SPECIAL SUPREME OIL. Do not combine Sulfur sprays with CMR SPECIAL SUPREME OIL and do not follow a previous application of sulfur or apply sulfur following CMR SPECIAL SUPREME OIL until sufficient time has elapsed for safety (about 30 days). If in doubt, spray a portion of one tree previously treated with sulfur, using 1 quart CMR SPECIAL SUPREME OIL to 25 gallons water. If sufficient time has not elapsed, foliar burns will develop within a few days. Do not use CMR SPECIAL SUPREME OIL when temperatures are above 90°F.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**Storage:** Store in a dry location away from children, animals, foods, feeds, seeds or other agricultural chemicals. Handle in accordance with information given under "Precautionary Statements." In the event of spillage or leakage, soak up material with absorbent clay, sand, sawdust or other absorbent material and dispose in accordance with information given under "DISPOSAL." In case of fire or other emergency, report at once by toll-free telephone to 800-424-9300.

**Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**Container Disposal:**

**Bulk Containers -** Return the empty tank to the supplier.

**Metal Containers -** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

**Plastic Containers -** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
