

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20460  NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREGISTRATION <i>(Under the Federal Insecticide, Fungicide,          and Rodenticide Act, as amended)</i>	EPA REGISTRATION NO. 48520-11	DATE OF ISSUANCE SEP 6 1995
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT  Stabilized Chlorinating Tiny Tabs	
NAME AND ADDRESS OF REGISTRANT (Include ZIP code)  Phoenix Chemical Company 8 Fairfield Court Danbury, CT 06811		
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.  A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.  Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.  Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.  Make the following labeling changes before you release the product for shipment:		
<ol style="list-style-type: none"> <li>1. Revise the Precautionary Statements and Statement of Practical Treatment in accordance with Attachment A for Batch 31 products.</li> <li>2. Revise the Environmental Hazards to read as follows:             "This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge.</li> </ol>		
<input type="checkbox"/> ATTACHMENT IS APPLICABLE		
SIGNATURE OF APPROVING OFFICIAL		DATE

Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA".

3. Under the "Storage and Disposal Statement" delete "or bury in a safe place".
4. Include the following re-entry statement: "Reentry into treated swimming pools is prohibited above levels of 3 ppm of chlorine".

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

NET WEIGHT 5 LBS

**HAZARDS TO HUMAN** PRECAUTIONS: May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Irritating to nose and throat. Avoid breathing dust. May cause burns to broken skin. Wear goggles or face shield and protective clothing when handling. Wash hands after handling.

**HAZARDS TO DOMESTIC ANIMALS** STATEMENTS: Do not get in eyes, on skin, or on clothing. Irritating to nose and throat. Avoid breathing dust. May cause burns to broken skin. Wear goggles or face shield and protective clothing when handling. Wash hands after handling.

**FIRST AID (PRACTICAL TREATMENT)** If swallowed food, gruel, cooked cereal, or bread soaked in milk, followed by olive oil cooking oil. In case of personal contact, remove excess material and flush skin or eyes with cold water for at least 15 minutes. For eyes get medical attention as soon as possible. Remove and wash contaminated clothing before use.

**CHEMICAL HAZARDS:** Strong oxidizing agent. Do not use moist or damp utensils. Contamination with moisture, dirt, organic matter or other chemicals, or any foreign matter, may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Keep out of lakes, streams, ponds, or public waters. Permits may be required for discharges containing this pesticide into public waters. For guidance contact the regional office of the Environmental Protection Agency.

**SPECIAL PRECAUTIONS (PLEASE READ)**

1. This product has a powerful chlorine odor. Hold away from face when opening to avoid breathing fumes.
2. Prolonged contact between this product in its undissolved state and vinyl liners or painted surfaces will result in bleaching of the vinyl or paint. Introduce this product through the skimmer or in a prescribed feeder to avoid discoloration of liner or paint.
3. When adding this product to skimmer or feeder make sure that there are no other chemicals present as a violent reaction may occur. It is always dangerous to mix chemicals.
4. Use this product as directed as per instructions on label. Do not take advice from others or experiment by yourself.
5. If this product is used to shock or superchlorinate a pool, after treatment it is important to brush walls and floor to expose algae that may be in cracks or wrinkles that might protect algae from high chlorine residual. Such protected algae will begin to reproduce again when high chlorine residual falls.
6. This product, because of its potent formulation, can be dangerous if not used properly. Do not mix with any other chemicals. This could result in a violent chemical reaction. Do not add water to this product in a closed container. Do not add this product to a small amount of water in a pail. When adding this product to skimmer make sure pump is on and water is circulating so that material is drawn into recirculation system. Do not allow build-up of dry material in skimmer as gases generated may cause an explosion.

Under the Federal Insecticide, Fungicide, and Rodenticide Act and registered under EPA Reg. No. 48520-11

### DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

1. Adjust pool water pH to 7.2 - 7.6. For pools with copper plumbing best pH factor is 7.6 to 7.8.
2. If pool has not been previously stabilized as determined by a test kit, add Conditioner and Stabilizer (cyanuric acid). Follow the directions for use on the label for that product.
3. Fill chlorinator with tablets. The rate of solution of the tablets depends upon the volume of water flowing through the chlorinator. Keep chlorine residual in pool above 1 p.p.m. at all times.
4. Adjust valves on chlorinator so that water flow can be observed passing through. Keep chlorine residuals between 1 and 2 p.p.m. by increasing or decreasing flow with proper valve settings.

Please note: The pH of Tiny Tab is on the acid side and will tend to reduce the pH and alkalinity of the pool water. Proper pH should be maintained by periodic additions of sodium carbonate or sodium bicarbonate. Each tablet weighs 28.4 grams or 1.0 ounces.

To determine pool capacity: Rectangular pools - length times width times average depth (in feet) times 7.5 equals gallons. Round oval pools - average diameter times average diameter times depth (in feet) times 5.9 equals gallons. One cubic foot of water equals 7.5 gallons.

**STORAGE AND DISPOSAL:** Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition isolate container in open area if possible, and flood with large amounts of water. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Place in trash collector, or dispose in approved landfill area, or bury in safe place.
