Mr. Roman W. Huber
Insecto Products, Inc.
630 N. Eckhoff Street
Orange, CA 92668

Dear Mr. Huber:

Subject: Amendment - Additional Site and Pests
INSECTO - An Insecticide for Control of Grain Insects
EPA Registration No. 48598-1
Your Application Dated July 15, 1991

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes indicated below prior to release for shipment of product bearing the amended labeling.

1. Qualify the additional uses as meaning indoor uses, i.e. Pest Control Around the House (Indoors).

Submit five copies of your final printed labeling before you release the product for shipment. A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

George T. LaRocca
Product Manager 13

**Precautionary Statements
Hazards to Humans and Domestic Animals**

CAUTION

Avoid contact with eyes. Use adequate ventilation and avoid breathing dust. If in eyes, flush eyes with plenty of water, call a physician if irritation persists. It is recommended that the applicator use a suitable mask (e.g., NIOSH/MSHA TC-21C-132) where INSECTO is being used or where other dusts are present.

INSECTS DIE FROM DEHYDRATION

INSECTO is derived from diatomaceous earth refined to certain specifications. Insects that come in contact with INSECTO are lacerated by the microscopic particles and lose their body fluid (dehydration) which will cause their deaths. This is a physical control to which insects have a difficulty building up a resistance.

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool, dry area.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide and Environmental Control Agency, or the nearest EPA-approved private waste disposal firm, for the nearest approved disposal procedure.

When you are finished with this product, please do not reuse the container. It is not to be used for any other purpose. It is to be disposed of as a pesticide waste.

CONTAINER DISPOSAL: Empty container may be recycled.

Keep this and all other pesticides in their original containers. Do not reuse. Keep out of reach of children.
