DIRECTIONS FOR USE

It is violation of Federal Law to use this product in a manner inconsistent with it's labeling.

FOR INDOOR USE ONLY.

PPP Flea & Tick Cycleblock(r) Home and Carpet Spray kills fleas and ticks. It contains a unique combination of ingredients that kills both adult and preadult fleas. Even kills fleas before they grow up to bite. Cycleblock(r), a unique ingredient in this flea spray, continues to kill fleas for 120 days (four months) by preventing their development into the adult biting stage. It reaches fleas hidden in carpet, rugs, drapes, upholstery, pet bedding, floorcracks. Protects your home from reinfestation and flea buildup, your pets and family from bites. One treatment with this spray gives continuous flea protection for 120 days. Leaves no objectional odor or sticky mess and, used as directed, does not stain furnishings.

FLEAS & TICKS: SHAKE WELL. Hold can 2 or 3 feet from surfaces to be treated. Be sure to apply uniformly using a sweeping motion to carpets, rugs, drapes and all surfaces of upholstered furniture. Be sure to treat pet bedding as this is a primary hiding place of fleas. No need to remove pet bedding after treatment. DO NOT TREAT PETS. Use a registered flea control product on your pets in conjunction with this treatment. Repeat as necessary. Avoid wetting furniture and carpeting. A fine mist or spray applied uniformly is all that is necessary to kill fleas and ticks.
