US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. 48701-1	DATE OF ISSUANCE NOV 25 1985
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	NAME OF PESTICIDE PRODUCT WTG 400	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

National Chemical Co., Inc.
 1809 Corporate Drive
 P.O. Box 78216
 Shreveport, LA 71107

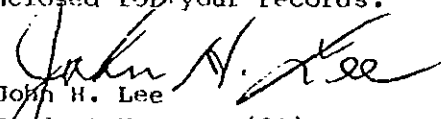

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

- This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:
1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
 2. Add the phrase "EPA Registration No. 48701-1" to your label before you release the product for shipment.
 3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.
- If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.
- A stamped copy of the label is enclosed for your records.

WTG400

ACCEPTED
with COMMENTS
in EPA Letter dated

NOV 25 1985

ACTIVE INGREDIENT:

2-(Thiocyanomethylthio)benzothiazole 30%

INERT INGREDIENTS 70%

Product Name: WTG400
EPA Reg. No. 48701-1
Registered under EPA Reg. No.

KEEP OUT OF REACH OF CHILDREN
DANGER

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Causes irreversible eye damage. Causes skin irritation. This product may cause allergic skin reactions. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

STATEMENT OF PRACTICAL TREATMENT: *If in eyes,* flush with plenty of water. Get medical attention. *If on skin,* wash with plenty of soap and water. Get medical attention. *If swallowed,* drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Get medical attention.

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not apply in marine and/or estuarine oil fields. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: Do not use or store near heat or open flame.

NET CONTENTS

DIRECTIONS FOR

It is a violation of Federal law to use this product without proper labeling.

COOLING TOWERS: WTG400
Apply WTG400 to cooling tower wood against soft or surface rot and insect damage by spraying or painting a dispersion containing 0.5 to 0.7% WTG400 in water onto the clean wood surfaces. The amount of WTG400 per 1000 gal. water in the system should be 0.6 to 3.7 fl. oz. per 1000 gal. water in the system.

rot can also be inhibited by periodic shock doses of WTG400 to the recirculating cooling water at the lower basin. Apply 1.25 lb. of WTG400 per 1000 gal. water in the system. bleedoff should be stopped for 4 to 6 hr. after treatment. repeated every four months.

COOLING WATER: WTG400
Apply WTG400 to cooling water to control bacteria, and fungi in industrial recirculating cooling systems. When biological slime, and other deposits. System should be cleaned thoroughly with water, and treated with an initial dose of 0.6 to 3.7 fl. oz. per 1000 gal. water in the system. and severity of microbiological fouling.

DRILLING FLUID: To inhibit bacterial and fungal degradation of wells, WTG400 concentrations of 0.05 to 0.25% based on the total wet weight of the fluid should be added.

PETROLEUM SECONDARY RECOVERY: WTG400
Apply WTG400 to control sulfate-reducing bacteria, slime-forming bacteria, micellar floods, water-disposal systems, and other oil-field operations.

WTG400 per 1000 gal. water should be made continuously or intermittently by means of a metering pump before or after injection pumps and injection well headers. When a well is noticeably fouled, add 0.6 to 3.7 fl. oz. of WTG400 per 1000 gal. water continuously until desired degree of control is achieved.

Intermittent or Slug Method: When a well is noticeably fouled, add 0.6 to 3.7 fl. oz. of WTG400 per 1000 gal. water to 8 hr per day and 1 to 4 times per week, or as needed for control.

CUTTING FLUIDS: WTG400
Apply WTG400 to control fungal degradation of water-based and water-soluble or emulsified cutting fluids in metalworking operations. It should be added to the cutting fluid at a rate of 0.6 to 3.7 fl. oz. per million parts per million WTG400 with water. WTG400 should be added to the concentrate before dilution at a rate of 125 to 250 times the required concentration in the diluted fluid.

STORAGE & DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. **PESTICIDE STORAGE:** Do not expose to extreme temperatures. High. Drums should be opened in well ventilated areas. Do not use in overpack drums for disposal. Spills should be absorbed and disposed in a sanitary landfill.

PESTICIDE DISPOSAL: Pesticide wastes are acutely toxic. Do not discharge into waterways. Do not use as a fertilizer. Do not use as a soil conditioner. Do not use as a soil amendment. Do not use as a soil stabilizer. Do not use as a soil conditioner. Do not use as a soil amendment. Do not use as a soil stabilizer. Do not use as a soil conditioner.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then puncture and dispose of in a sanitary landfill, or by other means approved by local authorities.
