

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

WARNING

Causes eye and skin irritation. Do not get in eyes, on skin or clothing. Harmful if swallowed. Do not breathe vapor or spray mist. Use waterproof gloves and face shield or goggles when handling concentrate. Wash thoroughly after handling.

Statement of Practical Treatment: In case of eye contact, immediately flush with plenty of water and get medical attention. In case of skin contact, wash immediately with soap and water. Get medical attention if eye or skin irritation persists. If ingested, do not induce vomiting. Drink milk, egg whites, or gelatin; if not available, drink plenty of water. If inhaled, remove victim to fresh air.

Note to Physician: There is no specific antidote; if ingested, do not induce emesis, and take care to avoid aspiration of stomach contents during gastric lavage. Give a saline laxative and supportive therapy.

Environmental Hazards: This product is toxic to fish and wildlife. Birds and wildlife in treated areas may be killed. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not contaminate water used for irrigation or domestic purposes. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes.

Physical or Chemical Hazards: Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Citridyne sanitizing solutions may be applied by dipping, spraying or in automatic systems and should be prepared daily before use. All surfaces should be thoroughly cleaned and thoroughly rinsed before sanitizing. Allow at least two minutes contact time. When sanitizing through CIP systems allow at least five minutes contact time.

USE DILUTION TABLE

CITRIDYNE	WATER	TITRATABLE IODINE
1 oz.	13 gallons	25 ppm
2 oz.	13 gallons	50 ppm

BEER TANKS, FERMENTATION TANKS, TRANSFER LINES, FILLER EQUIPMENT, WALLS AND FLOORS.

After thoroughly cleaning and rinsing, sanitize all surfaces with a 25 ppm titratable iodine solution of Citridyne. Apply solution by spraying or using in conjunction with automated cleaning systems, thoroughly wetting all surfaces. Allow surface to drain. No water rinse is required.

LABORATORY EQUIPMENT (BREWERY-DAIRY)

Laboratory equipment such as beakers, mixers, stirrers, benches, etc. should be thoroughly cleaned and rinsed. Sanitize with a 25 ppm titratable iodine solution of Citridyne by spraying, flushing, dipping or with a clean sponge. Thoroughly wet all surfaces and allow to drain dry.

Manufactured by:
WEST CHEMICAL PRODUCTS, INC., 1000 Herrontown Road, Princeton, N.J. 08540
Established in 1882.

Directions for Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Uniformly spray 2 1/2-3 gals. per 1,000 sq. ft. of soil surface, undiluted (100-120 gals. per acre). Thoroughly wet all foliage to insure contact action. Best results are obtained when applications are made during or after weed emergence while growth is succulent. Where vegetation is tall and dense, use 5 gals. per 1,000 sq. ft. (200 gals. per acre). For control of hard-to-kill perennial weeds and grasses, such as johnsongrass, bindweed and wild carrot, use 3-12 gals. per 1,000 sq. ft. Although **GRAND SLAM-15** VEGETATION KILLER has considerable activity through foliar contact, much of its activity is through the roots and, therefore, adequate rainfall to move the chemical into the root zone is necessary.

Under conditions where the rainfall is high and the growing season long, a second application may be necessary to maintain a weed-free soil surface.

Care must be taken to keep this herbicide away from desirable flower beds, lawns and shrubs. Do not apply over roots of valuable trees or woody ornamental plants. Only apply herbicide outside the drip-line of trees. Avoid spray drift to desirable plants.

STORAGE AND DISPOSAL

Pesticide, spray mixture, or rinsate that cannot be used according to label instructions must be disposed of according to federal, state, or local procedures. Drums - Triple rinse or equivalent and offer for recycling or reconditioning, or dispose of in a sanitary landfill or by other approved state and local procedures.

Do not store near fertilizers, seeds, insecticides, and fungicides. Avoid contamination of food and feed.

GRAND SLAM-15 VEGETATION KILLER
(IS-15)

Active Ingredients:

Prometon: 2,4-bis(isopronylamino)-6-methoxy-s-triazine	1.5%
Petroleum distillate	98.0%
<u>Inert Ingredients:</u>	<u>4.5%</u>
<u>Total:</u>	<u>100.0%</u>

Net Contents
U.S. Standard Measure

Keep Out of Reach of Children.

WARNING

See additional precautionary statements on label.

Bare ground weed control around: guard rails, airports, military installations, highway medians, pipelines, railroads, lumberyards, rights-of-way, buildings, storage areas, fences, pumps, machinery, fuel tanks, drainage ditch banks, recreational areas, roadways, or similar areas.
