

U.S. ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (WH-367) WASHINGTON, D.C. 20460	EPA REGISTRATION NO. 48969-1	DATE OF ISSUANCE 86 OCT 1984
	TERM OF ISSUANCE 30 OCT 1984	
	NAME OF PESTICIDE PRODUCT 1920	

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION

(Under the Federal Insecticide, Fungicide,
 and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

FALCETS
 10 N. Main St.
 Chagrin Falls, OH 44022

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 48969-1" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

ACTIVE INGREDIENT:

2-(Thiocyanomethylthio)benzothiazole 30%

INERT INGREDIENTS 70%

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended; for the pesticide
registered under EPA Reg. No. 48969-1

KEEP OUT OF REACH OF CHILDREN
DANGER

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Causes irreversible eye damage. Causes skin irritation. This product may cause allergic skin reactions. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

STATEMENT OF PRACTICAL TREATMENT: *If in eyes,* flush with plenty of water. Get medical attention. *If on skin,* wash with plenty of soap and water. Get medical attention. *If swallowed,* drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Get medical attention.

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not use in offshore or estuarine drilling operations. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with a NPDES Permit. For guidance, contact the regional office of the Environmental Protection Agency.

PHYSICAL AND CHEMICAL HAZARDS: Do not use or store near heat or open flame.

EPA REG. NO. _____ EPA EST. NO. _____

NET CONTENTS _____

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with the labeling.

COOLING TOWERS: _____ 1920
cooling tower wood against soft or surface rot and internal rot by staining or painting a dispersion containing 0.5 to 0.7% _____ in water onto the clean wood surfaces. The amount applied should be _____ per 1000 ft.²

rot can also be inhibited by periodic shock doses of _____ to the recirculating cooling water at the tower basin or collection tank. Provide 1.25 lb. of _____ bleedoff should be stopped for 4 to 6 hr. after treatment is repeated every four months.

COOLING WATER: _____ 1920
bacteria, and fungi in industrial recirculating cooling water systems. When begun, the system should be cleaned thoroughly to remove scale, sludge, biological slime, and other deposits. System should then be flushed with water, and treated with an initial dose of 0.6 to 3.7 fl. oz. of _____ per 1000 gal. water in the system. Subsequent treatments should be made every 1 to 5 days, depending on the type and severity of microbiological fouling.

DRILLING FLUIDS: To inhibit bacterial and fungal degradation of well fluids, _____ concentrations of 0.05 to 0.25% based on the total wet weight of the fluid should be maintained. _____

PETROLEUM SECONDARY RECOVERY: _____ control sulfate reducing bacteria, slime forming bacteria, and micellar floods, water disposal systems, and other oil-field water treatment systems. _____ per 1000 gal. of water should be made continuously or intermittently by means of a metering pump before or after injection pumps and injection well headers. Control is noticeably fouled, add 0.6 to 3.7 fl. oz. of _____ water continuously until desired degree of control is achieved. _____ per 1000 gal. of water should be added to maintain control. Intermittent or Slug Method: When system is noticeably fouled, control, add 0.6 to 3.7 fl. oz. of _____ to 8 hr per day and 1 to 4 times per week, or as needed to maintain control. _____

CUTTING FLUIDS: _____ fungal degradation of water-based and water-soluble or emulsifiable oil cutting fluids in metalworking operations. It should be added to the cutting fluid at a rate of _____ parts per million with water _____ can be added to the concentrate before dilution at a rate of 125 to 1250 times the required concentration in the diluted fluid.

STORAGE & DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. **PESTICIDE STORAGE:** Do not expose to extreme temperatures. High drums should be opened in well ventilated areas. Leaking drums should be opened in well ventilated areas. Leaking drums should be opened in well ventilated areas. Leaking drums should be opened in well ventilated areas. Spills should be absorbed in suitable material and disposed of in a sanitary landfill.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. If you cannot dispose of this pesticide, spray mixture, or rinseate is a violation of Federal Law. If you cannot dispose of this pesticide, spray mixture, or rinseate is a violation of Federal Law. If you cannot dispose of this pesticide, spray mixture, or rinseate is a violation of Federal Law.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then recycle or puncture and dispose of in a sanitary landfill, or by other procedures approved by local, state, or federal authorities.
