

U.S. ENVIRONMENTAL PROTECTION AGENCY
 OFFICE OF PESTICIDE REGISTRATION
 REGISTRATION DIVISION, WASHINGTON, D.C. 20460

NOTICE OF PESTICIDE: REGISTRATION
 RENEWAL/REREGISTRATION

*Under the Federal Insecticide, Fungicide,
 and Rodenticide Act as amended.*

EPA REGISTRATION NO. _____ DATE OF RENEWAL/REREGISTRATION
30 OCT 1984

TERM OF REGISTRATION _____

NAME OF PESTICIDE PRODUCT _____ **30 OCT 1984**

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

NOTE: Changes in labeling formula differing from substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

1910

ACTIVE INGREDIENT:

Potassium dimethyldithiocarbamate 25.0%

INERT INGREDIENTS 75.0%

This product contains 2.3 lb. of active ingredient per gallon and weighs 75.0 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN WARNING

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING: Causes eye damage and skin irritation. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT: In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, call a physician immediately. If patient is conscious, induce vomiting by stroking or tickling the patient's throat or far back on patient's tongue. Emetics such as 2 teaspoonsful (10 mL) of ipecac syrup or 1 teaspoonful (5 mL) of dry mustard in warm water to form a paste or even soap in warm water can be used. Repeat until vomit fluid is clear. Then have patient drink plenty of milk, gelatin solution, beaten egg whites, flour and water, or other non oily demulcent. Never induce vomiting or give anything by mouth to an unconscious person.

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not discharge treated effluent into lakes, streams, ponds, or public waters unless in accordance with a NPDES permit. For guidance, contact your Regional Office of the Environmental Protection Agency.

EPA EST NO.

NET CONTENTS

For use as a fungicide, bactericide, and insecticide. Act as amended for the pesticide registered under EPA Reg. No.

48969-4

DIRECTIONS FOR GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1910 is used in water cooling towers and industrial microbiological slime. Prior to the use of 1910 in water cooling towers, the water should be cleaned to remove algal growth, microbiological slime, and other debris. An initial slug addition of 4.5 to 6.8 fl. oz. of 1910 per 1000 gallons of water, based on total weight of water in the system, is recommended. Make subsequent slug addition of 2.3 to 3.6 fl. oz. of 1910 per 1000 gallons of water (20 to 60 ppm 1910) every 2 to 5 days or as needed. The frequency of addition depends upon the severity of the bacterial problem. Slug additions should be made in the sump of the cooling tower.

1910 is used in industrial air-washing systems which remove dirt and debris from components. Prior to its use, systems should be cleaned to remove other deposits. An initial slug dose of 10.6 to 13.6 fl. oz. of 1910 per 1000 gallons of water is recommended. Repeat initial dosage until control is evident. Subsequent dosages of 7.9 to 13.6 fl. oz. of 1910 per 1000 gallons of water should be made as needed. The frequency of addition depends upon the severity of the bacterial problem. Slug additions may be made to collection trays of the airwash system.

For the preservation of cutting fluids, 0.06 to 0.4% of 1910 in the diluted cutting fluid, is recommended. In some cases, higher concentrations of 0.06 to 0.4% are obtained when the fluid is diluted with water. For continued protection against bacterial growth, the diluted cutting fluid should be repeated every four weeks or as necessary if excessive contamination of a particular cutting fluid is observed.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. **STORAGE:** Do not expose to extreme temperatures. Do not store in metal drums. Drums should be placed in overpack drums for disposal. Spills should be cleaned up and disposed of in a sanitary landfill. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal is a violation of Federal Law. If these wastes cannot be disposed of by other means, contact your State Pesticide or Environmental Control Agency, or the nearest Regional Office for guidance.

CONTAINER DISPOSAL: **PLASTIC:** Triple rinse (or equivalent). Then offer for recycling or reuse, or burn in a sanitary landfill, or by other means as permitted by state and local authorities. **METAL:** Triple rinse (or equivalent). Then offer for recycling or reuse, or burn in a sanitary landfill, or by other means as permitted by state and local authorities.
