US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20460	EPA REGISTRATION NO. <b>49292-10</b>	DATE OF ISSUANCE <b>MAY 23 1996</b>
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREГИSTRATION <i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</i>		
NAME OF PESTICIDE PRODUCT <b>Sprite Sanitizer</b>		

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

**Formula Corporation**  
**7901 2nd Avenue South**  
**Seattle, WA 98108**

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. Revise the Precautionary Statements and Statement of Practical Treatment in accordance with Attachment A for Batch 3 products.
2. In the Ingredient statement place "Active Ingredient" above the Name of the Ingredient.

Active Ingredient(s)

Name of the ingredient .....	_____%
Inert Ingredients .....	_____%
TOTAL	100%

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL	DATE
---------------------------------	------

3. Revise the Environmental Hazards to read as follows:

"This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA".

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Walter C. Francis  
Acting Product Manager 32  
Antimicrobial Program Branch  
Registration Division (7505C)

Enclosure

Attachment A - Batch 3 Products

Labeling:

1. The signal word is "Danger".

2. The Precautionary Statements should read:

"Corrosive: Cause irreversible eye damage. May be fatal if inhaled. Causes skin irritation. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust. Wear goggles or face shield. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse".

3. The Statements of Practical Treatment should read:

If Swallowed: Drink promptly large quantities of water. Do not induce vomiting. Avoid alcohol. Call a physician or Poison Control Center.

If on Skin: Wash with plenty of soap and water. Get medical attention.

If Inhaled: Remove victim to fresh air. If not breathing, give artificial respiration, preferably, mouth-to-mouth. Get medical attention.

If in Eyes: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

Note to Physician: Probably mucosal damage may contraindicate the use of gastric lavage.

4 of 4

# SPRITE SANITIZER

SPRITE Sanitizer is recommended for use on hard (non-porous) surfaces or on dishes, glasses or food processing equipment or utensils, including dairy and brewery equipment and utensils.

**ACTIVE INGREDIENT**

Sodium Dichloro-s-triazinetrione Dihydrate .....	25%
Inert ingredients .....	75%
Provides 14% available chlorine	

## KEEP OUT OF REACH OF CHILDREN DANGER

### DIRECTIONS FOR USE

It is a violation of federal law to use this product inconsistently with its labeling. Prepare a sanitizing solution by dissolving 1 ounce of SPRITE SANITIZER per 10 gallons. This gives a solution containing 100 ppm available chlorine. Remove gross soil from item. Then clean item with a good detergent and rinse with potable water prior to sanitizing. Then place dishes, glasses, equipment or utensils in the solution or spread it over the surface to be sanitized. Allow item to remain in contact with the sanitizing solution for at least 1 minute. Adequate draining and air drying are required before food contact. A fresh sanitizing solution must be prepared daily or more often if the solution becomes soiled. The same solution should be used in the feed tank in immersion of spray type machines providing at least 1 minute contact time for sanitizing. If the solution is allowed to stand and tests show the level of chlorine has not been maintained, additional SPRITE SANITIZER should be added to maintain a minimum concentration of 100 ppm available chlorine. In mechanical operations sanitizing solutions may not be re-used for sanitizing. Used solutions may be used for cleaning, etc.

**PRactical TREATMENT FIRST AID**

If swallowed: Feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately.  
 If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.  
 If in eyes: Flush with cold water for at least 15 minutes. Get medical attention.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER:** Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES permit. For guidance contact your regional office of EPA.

**PHYSICAL AND CHEMICAL HAZARDS**

Strong oxidizing agent. Mix only with water. Use clean utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, generation of hazardous gases and possible generation of fire explosion. In case of contamination or decomposition do not re-seal container. If possible isolate container in open air or well-ventilated area. Flood with large volume of water if necessary.

### STORAGE AND DISPOSAL

Keep product dry in tightly closed containers when not in use. Store in cool, dry, well-ventilated area away from heat or open flame. In case of decomposition isolate container if possible and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved area or bury in a safe place.
