Subject: Sprite Sanitizer
EPA Registration Number 49292-10
Application Date: 4/23/03
Receipt Date: 4/30/03

Dear Mr. Millikan:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

- To update your label.

Conditions

- Revise the "Precautionary Statements" per the Registration Notice dated May 23, 1996 to read:

"Corrosive: Cause irreversible eye damage. May be fatal if inhaled. Causes skin irritation. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust. Wear goggles or face shield. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse".
- You must provide a "Hotline Telephone Number" under the First Aid Statement as per PR Notice 2001-1.

General Comments

A stamped copy of the accepted labeling is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

SPRITE SANITIZER

SPRITE Sanitizer is recommended for use on hard (nonporous) surfaces or on dishes, glasses or food processing equipment or utensils, including dairy and brewery equipment and utensils.

ACTIVE INGREDIENT	
Sodium Dichloro-s-triazinetrione dihydrate.....	25%
INERT INGREDIENTS	75%
TOTAL	100%

Provides 14% available chlorine

MANUFACTURED BY: FORMULA CORPORATION EPA REG NO. 49292-10 EPA EST. NO. 49292-WA-1

KEEP OUT OF REACH OF CHILDREN

DANGER

DIRECTIONS FOR USE

It is a violation of federal law to use this product inconsistent with its labeling.

Prepare a sanitizing solution by dissolving 1 ounce of SPRITE SANITIZER per 10 gallons of water. This gives a solution containing 100 ppm available chlorine. Remove gross soil from item. Then clean item with a good detergent and rinse with potable water prior to sanitizing. Then place dishes, glasses, equipment or utensils in the solution or spread it over the surface to be sanitized. Allow item to remain in contact with the sanitizing solution for at least 1 minute. Adequate draining and air drying are required before food contact. A fresh sanitizing solution must be prepared daily or more often if the solution becomes soiled. The same solution should be used in the feed tank in immersion of spray type machines providing at least 1 minute contact time for sanitizing. If the solution is allowed to stand and tests show the level of chlorine has not been maintained, additional SPRITE SANITIZER should be added to maintain a minimum concentration of 100 ppm available chlorine. In mechanical operations sanitizing solutions may not be reused for sanitizing. Used solutions may be used for cleaning, etc.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CORROSIVE: CAUSES EYE AND SKIN DAMAGE. IRRITATING TO NOSE AND THROAT. HARMFUL OR FATAL IF SWALLOWED. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Avoid breathing dust or fumes. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **If Swallowed:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **If On Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 - 20 minutes. Call a poison control center or doctor for treatment advice. **If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. **If In Eyes:** Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **Note To Physician:** Probably mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTAL HAZARD -This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

OXIDIZING AGENT contact with water slowly liberates irritating and hazardous chlorine containing gases. Decomposes at temperatures above 464°F with liberation of harmful gases. When ignited, will burn with the evolution of chlorine and equally toxic gases. **NEVER** add water to product. Always add product to water. Use clean, dry utensils. **DO NOT** add this product to any dispensing device containing remnants of any other product. **IN CASE OF FIRE OR SMOKE:** Call the fire department. Do not attempt to extinguish the fire with out a self contained breathing apparatus (SCBA). Do not let the fire burn. Flood with copious amounts of water. **DO NOT** use ABC or other dry chemical extinguishers since there is the potential for a reaction. **IN CASE OF CONTAMINATION OR DECOMPOSITION: DO NOT** reseal container. Follow disposal instructions on label.

STORAGE AND DISPOSAL

STORAGE: Keep material dry and in a dry area. Store in original container where temperatures do not exceed 125°F (52°C) for 24 hours. Keep container tightly closed.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the EPA Regional Office for guidance. The preferred disposal methods are incineration or chemical treatment in accordance with Federal, State and Local regulations. Do not put product, spilled product, or filled or partially filled containers into the trash or waste compactor. Contact with incompatible materials could cause a reaction and fire. **DO NOT** transport wet or damp material.

CONTAINER DISPOSAL: Do not reuse empty container. Triple rinse empty container with water. Return metal drum then offer for reconditioning or puncture and dispose of in a sanitary landfill, or by other procedures approved by State and local authorities. Plastic containers may be disposed of in a sanitary landfill, incinerated, or if allowed by local authorities, by burning. If burned stay out of smoke. For containers of 1 gallon or less: Do not reuse empty container (bottle, can, bucket). Wrap container and put in trash.

BEFORE HANDLING OR USING, READ AND UNDERSTAND CURRENT MATERIAL SAFETY DATA SHEET FOR THIS PRODUCT.
