US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRAT NO.	DATE OF ISSUANCE
	49344-3	MAY 12 1986
	TERM OF ISSUANCE	
<b>NOTICE OF PESTICIDE:</b> <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	NAME OF PESTICIDE PRODUCT	
	C108	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Fuller Engineering, Inc.  
 1240-P North Jefferson  
 Anaheim, CA 92807

**NOTE:** Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 49344-3" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Pesticide, Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended for the pesticide  
registered under EPA Reg. No.

49344-3

50.0%

50.0%

ACTIVE INGREDIENT:

Potassium dimethyldithiocarbamate

INERT INGREDIENTS

This product contains 5.2 lb. of active ingredient per gallon and weighs 10.4 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN  
DANGER

PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes eye and skin damage. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT: In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician. Never induce vomiting or give anything by mouth to an unconscious person.

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not apply in marine and/or estuarine oil fields. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

NET CONTENTS

DIRECTIONS

It is a violation of Federal law to use this pesticide in a manner inconsistent with its labeling.

C108 is used in cooling tower systems and industrial air-washing. Prior to the use of C108 recirculating cooling tower systems, systems with microbiological slime, and other deposits. Then add 3.0 fl. oz. of C108 to 20 to 30 ppm of C108 of water in the system. Repeat initial dosage with addition of 1.0 to 3.0 fl. oz. of C108 gal. of water (10 to 30 ppm) C108 days or as needed. The frequency of additional bleedoff and the severity of the microbiological growth in the sump of recirculating cooling tower systems C108 is used to maintain effective mist-eliminating components cleaned to remove bacterial slime and other deposits. 6.0 fl. oz. of C108 is recommended. Repeat initial dosage until control is achieved. 3.5 to 6.0 fl. oz. of C108 water should be employed every 1 to 5 days, depends upon the relative amount of bleedoff and additional may be made to the sump or the water C108 is used to control bacteria, including sulfate-reducing organisms in waterflooding operations. In systems fouled with bacteria, 8 to 16 ppm (0.83 to 1.6 per 1000 gal. of water treated). This should be C108 employing a concentration of 8 ppm, based on total solids and continuous addition of C108 heater-treater dump, gathering lines, or receiving upstream to the filter. C108 is also used to control bacteria in water-based drilling muds, complete based drilling fluids containing starch, gums, and other purposes C108 is used for gal. per 100 barrels of fluid (0.06 to 0.1).

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. STORAGE: Do not expose to extreme temperatures. Do not store drums should be placed in overpack drums for disposal. Spill or leak in a sanitary landfill. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. If a mixture, or rinseate is a violation of Federal Law. If these wastes are not disposed of in accordance with the instructions, contact your State Pesticide or Environmental Control Agency or your EPA Regional Office for guidance.

CONTAINER DISPOSAL:

- PLASTIC: Triple rinse (or equivalent). Then offer for recycling or incineration, by incineration, or, if allowed by state and local authorities, by landfill.
- METAL: Triple rinse (or equivalent). Then offer for recycling or incineration, by incineration, or, if allowed by state and local authorities, by landfill.
