US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION NO.	DATE OF ISSUANCE
	49344-4	MAY 12 1986
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)	NAME OF PESTICIDE PRODUCT	
	C107	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Fuller Engineering, Inc.
 1240-P North Jefferson
 Anaheim, CA 92807

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA registration No. 49344-4" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

EPA REGIONAL OFFICE

MAY 12 1986

Herbicide, ~~...~~
Fungicide, ~~...~~
as amended, for the pesticide
registered under EPA Reg. No.

ACTIVE INGREDIENT:

Potassium dimethyldithiocarbamate 33.3%

INERT INGREDIENTS 66.7%

This product contains 3.2 lb. of active ingredient per gallon and weighs 9.61 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN
DANGER

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes eye and skin damage. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT: In case of skin contact, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. If product gets in the eyes, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. If product is swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician. Never induce vomiting or give anything by mouth to an unconscious person.

Note to physician: Probable mucosal damage may contraindicate gastric lavage.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not apply in marine and/or estuarine oil fields. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this pesticide in a manner inconsistent with its labeling.

C107 is used in industrial cooling tower systems and industrial air-washing systems. Prior to the use of C107 in recirculating cooling tower systems, systems showing microbiological slime, and other deposits. Then maintain a concentration of 5 fl. oz. of C107 per 30 gal. of water (to 45 ppm of C107) of water in the system. Repeat initial dosage until control is achieved. Additions of 2 to 5 fl. oz. of C107 per gal. of water (to 15 to 45 ppm of C107) should be made as needed. The frequency of addition should depend on the severity of the microbiological problem and the sump of recirculating cooling tower systems.

C107 is used to maintain effective mist-eliminating components. Cleaned to remove bacterial slime and other deposits. Add 10 fl. oz. of C107 per 6 gal. of water (to 10 ppm of C107) as recommended. Repeat initial dosage until control is achieved. Additions of 6 to 10 fl. oz. of C107 per gal. of water should be employed every 1 to 5 days, or depends upon the relative amount of bleedoff and additions may be made to the sump or the water.

C107 is used to control bacteria, including sulfate-reducing organisms, in waterflooding operations. In systems fouled with bacteria, 12 to 24 ppm (to 1.4 to 3 ppm per 1000 gal. of water treated) should be added as a slug dose. This should be repeated at a concentration of 12 ppm, based on total volume of water, and continuous addition of C107 to the heater-treater dump, gathering lines, or receiving tanks upstream to the filter.

C107 is also used to control bacteria in water-based drilling muds, completion fluids containing starch, gums, sugars, and other additives. Add 10 to 10 gal. per 100 barrels of fluid (to 0.10 to 0.10 gal. per barrel).

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. STORAGE: Do not expose to extreme temperatures. Do not store in drums should be placed in overpack drums for disposal. Spills should be cleaned up in a sanitary landfill. Keep container closed when not in use.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. If you cannot dispose of this pesticide in accordance with the instructions on the label, contact your State Pesticide or Environmental Control Agency, or your EPA Regional Office for guidance.

CONTAINER DISPOSAL:

PLASTIC: Triple rinse (or equivalent). Then offer for recycling or incineration, or, if allowed by state and local authorities, by incineration, or, if allowed by state and local authorities, by other procedures approved by state and local authorities.

METAL: Triple rinse (or equivalent). Then offer for recycling or incineration, or, if allowed by state and local authorities, by other procedures approved by state and local authorities.
