## INDUSTRIAL MICROBIOCIDES

FOR USE IN THE GENERATION OF CHLORINE DIOXIDE

To control microorganisms in oil field injection waters, refinery waste water, enhanced oil recovery systems, industrial recirculating water cooling towers, in once-through fresh and sea water industrial cooling water systems, and in pulp and paper mill systems.

KEEP OUT OF REACH OF CHILDREN

# DANGER

### PRECAUTIONARY STATEMENT

Hazards to Humans and Domestic Animals: Danger: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Do not handle with bare hands. Wear goggles or face shield and use neoprene gloves and ~~only~~ thoroughly clean utensils when handling. Irritating to nose and throat. Avoid breathing fumes. Remove and wash contaminated clothing to avoid fire.

### FIRST AID (Practical Treatment)

If on Skin: Flush skin with cold water for at least 15 minutes. Call physician.  
 If in Eyes: Flush with cold water for at least 15 minutes. Call physician.  
 If Swallowed: Give large amounts of water. Call physician.

CHEMICAL HAZARDS: Danger: ~~SC~~ SC 6009 is a strong oxidizing agent. Mix only into water. Contamination may start a chemical reaction with generation of heat, liberation of hazardous gases (chlorine dioxide—a poisonous explosive gas), and possible fire and explosion. Do not contaminate with garbage, dirt, organic matter, household products, soap products, paint products, solvents, acids, vinegar, beverages, oils, pine oil, dirty rags, or any other foreign matter.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance contact the regional office of EPA.

STORAGE AND DISPOSAL: Keep product ~~in~~ in tightly closed container when not in use. Don't drop, roll or skid drum. Keep upright. Always replace cover. Store in a cool, dry, well-ventilated area away from heat or open flame. Do not reuse empty container. Rinse empty container thoroughly with water before discarding. ~~Place in trash collection or~~ Dispose in approved landfill or bury in a safe place.

EMERGENCY HANDLING: In case of contamination or decomposition, do not reseal container. If possible, isolate container in open and well-ventilated area. Flood with large volumes of water. If fire occurs, extinguish fire by applying large volumes of water. Any unopened drums near the fire should be cooled by spraying with water.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

TREATMENT REQUIREMENTS: Dosage rates of SC 6009 microbiocide will depend on the severity of contamination, the degree of control desired and if a continuous or slug treatment is used. The exact dosage will depend on the size of the system and residual necessary for effective control. Generally, .25 to 800 ppm of chlorine dioxide is required. Add at a location that will insure uniform distribution. Your South Coast Chemical representative will develop a complete treatment program.

METHOD OF TREATMENT: Chlorine dioxide is generated from SC 6009 and acid with a South Coast Chemical chlorine dioxide generator. Complete technical assistance including feed rates needed to produce chlorine dioxide will be provided by South Coast Chemical, Inc. Design, construction and operation of the chlorine dioxide facilities will be carried out by South Coast Chemical, Inc.

EPA REGISTRATION DIVISION

NOTICE OF PESTICIDE

NAME AND ADDRESS OF REGISTRANT (SEE INSTRUCTIONS)

F  
L

NOTE: Changes in labeling, formula, formula or substance, or that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Re-registered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Re-registration is returned herewith.

Registration is in no way to be construed as an endorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right of exclusive use of the name or to its use if it has been covered by others.
