

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

49403-27

EPA Reg. Number.

Date of Issuance:

JUL 1 4 2000

NOTICE OF PESTICIDE:

x Registration
Reregistration

(under FIFRA, as amenced)

Term of Issuance: Conditional

Name of Pesticide Product: Nipacide BFW

Name and Address of Registrant (include ZIP Code):

Nipa Hardwicke, Inc. 3411 Silverside Road Hagley Building, Suite 104 Wilmington, DE 19810

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be constitued as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

- 1. Submit and/or cite all data required for registration/ reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
  - 2. Make the following label changes:
    - a. Revise the EPA Registration Number to read, "EPA Reg. No. "49403-27".

- 2. The revised Confidential Statement of Formula for the basic formulation, dated March 31, 2000 is in compliance with PR Notice 91-2, agrees with the label and is acceptable. All product chemistry data were found to be acceptable.
- 3. Submit two (2) copies of the revised final printed labeling before you release the product for shipment.

A stamped copy of the label is enclosed for your records.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

If you have any questions concerning this letter, please contact Martha Terry at (703) 308-6217.

Sincerely,

Marshall Swindell Product Manager 33

# NIPACIDE® BFW ✓ INDUSTRIAL MICROBIOSTAT

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Nipacide® BFW is an effective preservative in most aqueous compositions. Typical applications and the suggested range on which trials can be based, are:

Product

% Nipacide® BIT BFW (based on total wt. of product)

Photographic film and paper coating compositions: 0.075 – 0.5

The concentration required to give protection depends on several factors. These include the susceptibility of the system to microbiological degradation, the extent to which microorganisms can gain access, the species involved, pH, temperature, and length of time for which protection is required.

For protection against bacterial attack, a concentration within the range 0.075 - 0.5% Nipacide® BFW is almost invariably sufficient.

The control of mold growth may occasionally demand dosage above 0.5%.

A simple method of determining the effective dosage rate is to prepare samples of the product containing varying concentrations of Nipacide® BIT BFW, e.g., 0.075, 0.15, 0.25 and 0.5%. These can be stored at approx. 25°C for a period of time and compared with a control sample of product containing no preservative stored under similar conditions.

ENVIRONMENTAL HAZARD: This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other, waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

For industrial use only as microbiostat preservative for aqueous compositions such as photographic film and paper emulsions.

Active Ingredient:

1,2 benzisothiazolin-3-one	7%
Inert Ingredients	.93%
•	100%

### KEEP OUT OF REACH OF CHILDREN DANGER

#### STATEMENT OF PRACTICAL TRUNTMENT

IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Call a physician immediately.

IF SWALLOWED: Drink large quantities of water. Do not give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

IF ON SKIN; Wash with plenty of soap and water.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

> PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals

#### DANGER

CORROSIVE, CAUSES EYE AND SKIN DAMAGE, HARMFUL OR FATAL IF SWALLOWED. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly with soap and water after handling and before eating or smoking. contaminated clothing and wash before reuse.

EPA Reg. No. 49403-£7 EPA Est. No. 33979-SC-01

#### STORAGE AND DISPOSAL

STORAGE: Protect from frost. If frozen, allow to thaw, warm (do not overheat) and stir well to assure complete solubilization before reuse.

PESTICIDE DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Open dumping is prohibited.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
