Reregistration

Name and Address of Registrant (include ZIP Code):
Clariant Corporation
4000 Monroe Road
Charlotte, N. C. 28205

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for re-registration of your product under FIFRA section 4.

2. Make the labeling changes listed below before you release the product for shipment:
   a. Revise the "EPA Registration Number to read, "EPA Reg. No. 49403-34".

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

JMACTM Composite PG is a stable broad-spectrum biocide that is effective over an exceptionally wide pH range (pH 1 – pH 13). JMACTM Composite PG can be added at any stage in the processing. It is stable and retains its efficacy at processing temperatures up to 572°F (300°C). JMACTM is compatible in a wide range of formulations, and it is unaffected by the presence of particulate matter and most surfactants. Typical applications and the suggested range of concentrations on which trials can be based are outlined below; however, formulations vary and it is essential when first using JMACTM Composite PG, to first challenge test formulations before deciding on an optimum concentration.

Manufactured products incorporating this product may not make any public health claims relating to antimicrobial activity without first obtaining an EPA registration for the manufactured product which permits such claims. This product may not be used for any applications involving food contact, food packaging or human drinking water.
