Subject: Notification per PRN 98-10 –Adding “Child-Resistant”
Product Name: RESCUE! ANT BAITs
EPA Registration Number: 49407-2
Application Date: 3/6/2018
Decision Number: 538999

Dear Ms. Smith:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, you may contact Angela Hollis at 703-347-0216 or via email at hollis.angela@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Elizabeth Fertich". The signature is fluid and cursive, with the first name "Elizabeth" and last name "Fertich" clearly distinguishable.

NOTIFICATION

49407-2

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

05/09/2018

{BACK PANEL, PACKAGE CONTAINING 2, 4, 6, 8, 10 OR 12 BAIT STATIONS}

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Bait stations are packaged two to a pouch. Use at least two stations at a time.
2. Open pouch. Bait stations are ready to use. Bait stays contained within the bait station.
3. Place bait stations clear side up, in locations where you see ants*.
4. For best results, place [both][all][6] stations at once [throughout][in] areas with ant activity [and anywhere ants may enter the home].
5. Leave bait station in place. Ants will find it and make pheromone trails for other ants to follow.
6. While ants are active in and around the home, replace bait stations every two weeks. Once ant activity stops, replace bait stations every 3 months to help prevent new infestations.

[Optional Claims {See Appendix A.}]

* Excluding carpenter, harvester, fire, and Pharaoh ants.
