Conditional

Name of Pesticide Product:

Cloralex Bathroom

NOTICE OF PESTICIDE:

Reregistration
X Registration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

AlEn del Norte, SA de CV Blvd. Diaz Ordaz No. 1000 Santa Catarina, NL 66530 Mexico

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

- 1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5); when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
- 2. Make the following label changes:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 49547-11"
 - b. The hard non-porous surfaces disinfectant claims are for, Salmonella choleraesuis and Staphylococcus aureus for a contact time of one minute and as a fungicide against Trichophyton mentagropytes for a contact time of five minutes.

CMD JAKE KILL		

- 3. The enforcement analytical method should include:
 - a. The procedure for preparation of the solutions.
 - b. The limit of detection and quantification should be established for the Sodium Hypochlorite.
 - c. Whether the sodium hypochlorite is linear.

Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

À.

A stamped copy of the label is enclosed for your records.

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

CAUTION: Causes moderate eye and skin irritation. Use only in well ventilated areas. Avoid prolonged breathing of vapor. Harmful if swallowed. Avoid contact with eyes, skin, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

FIRST AID: Call poison control center or doctor for treatment advice. Have product container or label with you when you call a poison control center or doctor. If in eyes: Hold-eye open and-rinse-slowly-and-gently-with-water-for-15-20-minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. If on skin or clothing: Take off contaminated clothing. Rinse skin with plenty of water for 15-20 minutes. If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth to mouth if possible. If swallowed: Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Environmental Hazards

This product is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Physical and Chemical Hazards

STRONG OXIDIZING AGENT. Mix only with water. Mixing this product with gross filth such as feces, urine, etc., or with ammonia, acids, detergents or other chemicals may release hazardous gases irritating to eyes, lungs and mucous membranes. Avoid contact with wood, painted surfaces, metal, silver, cloths, fabrics and surfaces that can discolor.

STORAGE AND DISPOSAL

Store this product in a cool dry area away from direct sunlight and heat to avoid deterioration. Do not reuse container but place in the collection.

ACCEPTED with COMMENTS-EPA Letter Dated:

AUG - 1 2006

Under the Federal Insecticide, Fungicide, and Rodenticide Act at amended, for the pesticide,

registered under EPA Reg. No. /

* Staphylococcus aureus, Salmonella chloreaus

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Thoroughly read the instructions before using this product.

Cleaning bathroom floors, sinks, bathtubs, and other hard nonporous surfaces:

- 1. Turn nozzle to spray or stream position.
- 2. Spray 4 -6 inches from surface.
- 3. Leave wet for a few minutes.
- 4. Wipe with a sponge or brush.
- 5. Rinse.

To disinfect bathroom floors, sinks, bathtubs, and other hard nonporous surfaces

- 1. Follow the directions above to clean surface.
- 2. Spray 4 inches from the surface and thoroughly wet the surface.
- 3. Leave wet for one (1) minute.
- 4. Rinse and air dry.

To kill fungus follow the directions above but leave wet for five (5) minutes: rinse and air dry.
