### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For use around the home only.

#### OPTION A - [For Bag]

(PARAGRAPH FORMAT)

Wearing household latex or rubber gloves, use a dust applicator such as a shaker can or other appropriate garden duster. Treat when insects or their damage first appear. Apply when air is calm to avoid drift and contact with eyes and skin. Start at the farthest corner of area to be treated and work backward to avoid contact with dust. Lightly cover both upper and lower leaf surfaces with a thin, even film of dust. Foliage should be dry before dust is applied. Allow dust to settle in treated areas before returning. For best results, treat every 7 - 10 days. Do not apply more than once a week. For plants above chest height, consider using a liquid sevin (carbaryl) product.
