NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4."
2. Add the phrase, "EPA Registration No. 49585-21" and submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.
3. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

**Equivalent to 145 million International Units per pound of dust

Keep Out of Reach of Children

CAUTION

See back panel for additional precautionary statements.
Read entire label.

NET WT. 10 OZ.

4 4 5

IMPORTANT: TO AVOID DAMAGE OR POOR RESULTS, CAREFULLY READ ALL DIRECTIONS AND PRECAUTIONARY STATEMENTS.

Super K-Gro Vegetable Garden Dust contains Bacillus thuringiensis, which is a natural ingredient. This selective, biological insecticide is used to effectively control worms and caterpillars.

Within an hour after eating a effective dose of Super K-Gro Vegetable Garden Dust, larvae will stop feeding and will subsequently die within several days.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SUPER K-GRO VEGETABLE GARDEN DUST can be used up to the day of harvest, as well as during storage of harvested crops.

APPLICATION: Before using shake bottle and tap bottom lightly to loosen any settled product. HOLD THE CONTAINER SO THAT THE DISCHARGE NOZZLE IS POINTED AWAY FROM THE FACE AND BODY, THEN SQUEEZE. Avoid standing in the path of dust. For successful control of listed pests, apply dust to all exposed plant parts, particularly upper and lower leaf surfaces. For best results, apply dust in early morning or late evening when the air is calm. Apply every 7 days or as needed. Apply to foliage at the rate of 2 to 3 ounces per 50 feet of row planting.

Super K-Gro Vegetable Garden Dust may be used for any listed pest in both field and greenhouse uses.

CROP

Pest

Field and Greenhouse vegetables, including: Broccoli, Spinach, Collards, Cauliflower, Kale, Lettuce, Rappini, Artichokes, Turnips, Turnip greens, Beets, Celery, Mustard greens, Beans, Cabbage, Brussels Sprouts, Peas, Chinese Cab'age, Sweet Potato, Kohlrabi, Endive, Sweet Corn, Tomatoes, Peppers, Eggplant, Escarole, Lentils, Potatoes, Carrots, Cucumbers, Melons, Squash, Watercress

Safflower, Mints, Peanuts, Sunflowers

Loopers, Sunflower moth, Salt marsh caterpillar, Green cloverworm, Sorghum headworm, Skippers, Alfalfa caterpillar

Grapes, Blueberries, Blackberries,
Currants, Raspberries, Hops,
Strawberries, Dewberries

5 9 5
Grapeleaf skeletonizer, Loopers, Salt
marsh caterpillar, Grape leaf folder/
leafrollers, Hornworms

Ornamental plants, Flowers, Shrubs

Armyworms, Pine butterfly, Spruce
budworm, Western spruce budworm,
Douglas fir tussock moth, Diamond-
back moth, Gypsy moth, Elm spanworm,
Bagworm, Saddled prominent, Saddleback
caterpillar, Leafrollers, Loopers,
Western tussock moth, Corn earworm
lo moth, Mimosa webworm, Jack pine
budworm, Oleander moth, Fall webworm,
Tent caterpillars, Redhumped
caterpillar, Cankerworms, Oakworms,
Hornworms

For best control of Gypsy moth, apply when young larvae are present and when leaf expansion is 40-50%. Repeat in 1 to 3 weeks. For best control of spruce budworm, apply on population below 35 larvae per 18-inch branch tip and when 50% of the larvae are in the 3rd and 4th instar.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS: Avoid inhalation or contact with eyes or open wounds. In case of contact, immediately flush eyes and skin with plenty of water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

Do not apply directly to water or wetlands (swamps, bogs, marshes & potholes). Do not contaminate water when disposing of equipment washwaters.

STORAGE AND DISPOSAL

STORAGE: Store in original container in a cool, dry place, preferably in a locked storage area inaccessible to children.

DISPOSAL: Do not reuse empty container. Securely wrap original container in several layers of newspaper and discard in trash. Do not contaminate food or potable water by disposal of waste.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
