Fast Drying • Long Lasting • Water Clean Up • Easy to Use

One-Coat Anti-Insect Coating® is a premium quality finish, designed for use in controlling flying or crawling insects on interior surfaces such as baseboards, window frames, door frames, soffits, valances, mouldings and other trim surfaces, as well as all exterior surfaces.

One-Coat Anti-Insect Coating® can be used on both new and previously painted surfaces. And it is washable!

Coverage: 300-400 sq. ft. (34-46 sq. meters) per gallon.

Drying Time: 4-6 hours at 77°F. and 50% relative humidity.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Harmful if swallowed or absorbed through skin. Avoid breathing vapors while paint is wet. Provide adequate ventilation of area during application. May cause eye irritation. Avoid contact with eyes, skin and clothing. Wash thoroughly with soap and water after handling. Do not use this product in food contact areas of food handling establishments, restaurants, milk rooms or other areas where food is prepared or processed. Do not use this product for broadcast interior home application.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Call a physician or poison control center; drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Never give anything by mouth to an unconscious person.

If Inhaled: As with any freshly painted surface, get plenty of fresh air.

If on Skin: Wash with plenty of soap and water. Get medical attention if irritation persists.

If in Eyes: Flush with plenty of water. Get medical attention if irritation persists.

NOTE TO PHYSICIAN: This product contains chlorpyrifos, a cholinesterase inhibitor. Treat symptomatically. Atropine, only by injection, is an antidote.

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes all risk of any such use.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply directly to water. Apply this product only as specified on the label.

PHYSICAL HAZARDS

Should not be mixed with water or any other paint or solvent. Use no more than 5% weight of universal coloring. Do not apply at temperatures lower than 50°F.

STORAGE AND DISPOSAL

This product must be stored away from freezing temperatures. If paint becomes cold (45°F. and lower), shake vigorously before using to insure maximum efficiency.

Securely wrap original container in several layers of newspaper and discard in trash. Do not reuse container. Rinse thoroughly before discarding in trash.

DIRECTIONS FOR USE

It is a violation of Federal law to use inconsistent with its labeling.

Be sure surface is clean and dry, remove all dirt, dust, oil, contaminants by washing with a detergent solution, rinse thoroughly, and allow to dry completely before painting. Before use, thoroughly mix contents of can. Apply by brush, roller or spray. For best results, apply in the shade with surface temperature between 50°F. and 90°F. Do not thin or mix with any other product.

May be used to control cockroaches, ants, crickets, firebrats, silverfish, spiders, flies and mosquitoes on exterior surfaces and interior surfaces such as baseboards, window and door frames, soffits, valances, mouldings and other trim surfaces of non-food contact areas of homes, stores, restaurants, hospitals, factories, schools, offices, farms, hotels, dairy barns and rest homes.
