E N V I R O N M E N T A L H A Z A R D S

Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

D I R E C T I O N S F O R U S E

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

1. Apply dry powder ION/MOSS when moss is wet-after a rain, after watering, or with early morning dew.
2. Apply in liquid by adding one pound of ION/MOSS powder to five gallons of water, mix thoroughly and then sprinkle directly onto the moss infested areas. Apply at anytime after the moss is damp or wet.
3. Apply ION/MOSS to lightly affected areas at the rate of one pound per 1,000 square feet. For heavier growth, apply over smaller area.
4. Apply ION/MOSS anytime of the year. For best result, do not apply while it is raining.
5. In two to four weeks, moss will turn from green to yellow to brown.
6. Removal of dead moss is not necessary because it will break down and gradually weather away.

application rate the same as the same in water & then apply
Efficiency Waiver

S T O R A G E A N D D I S P O S A L

Store in a cool, dry area away from heat or open flame. Do not reuse empty containers. Wrap container in several layers of newspaper and put in trash collection

ION/MOSS is corrosive to copper
