Water Clear Algaecide Concentrate is used to control the growth of algae in swimming pools, exterior spas, whirlpools, and hot tubs. For maximum effectiveness pools, spas, whirlpools, and hot tubs containing heavy growth of algae should be cleaned prior to using Water Clear Algaecide Concentrate.

For pools having just visible algae growth add an initial dose of 23.5 to 36.4 fluid ounces of Water Clear Algaecide per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool add initially 12.8 to 23.5 fluid ounces of Water Clear Algaecide per 10,000 gallons of water. Subsequent additions of 4.2 to 8.6 fluid ounces of Water Clear Algaecide per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

Spas, whirlpools, or hot tubs having just visible algae growth require an initial dose of 2 to 4 fluid ounces of Water Clear Algaecide per 1000 gallons of water. For treatment of a freshly cleaned and filled spa, whirlpool, or hot tub, add initially 1 to 2 fluid ounces of Water Clear Algaecide Con per 1,000 gallons of water.
