NOV 3 1983

50172-1
NOV 3 1983
Under the Federal Insecticide, Fungicide, and Rodenticide Act
as amended, this pesticide is registered under EPA Reg. No. 50172-1
JCS 11/3/83

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
AND DOMESTIC ANIMALS**

DANGER: Corrosive may cause severe skin irrita-
or chemical burns to broken skin. Causes eye damage. Do
not get in eyes, on skin or on clothing. Wear goggles or face
shield and rubber gloves when handling this product. Wash af-
ter handling. Avoid breathing vapors. Vacate poorly ventilated
areas as soon as possible. Do not return until odors have dissi-
pated.

ENVIRONMENTAL HAZARDS: This pesticide
is toxic to fish. Keep out of lakes, streams or ponds. Treated ef-
fluent may not be discharged into lakes, streams, ponds or pub-
lic waters without a valid discharge permit. For guidance, con-
tact the regional office of the Environmental Protection Agency.

PHYSICAL AND CHEMICAL HAZARDS:
STRONG OXIDIZING AGENT: Mix only with
water according to label directions. Mixing this product with
gross filth such as feces, urine, etc. or with ammonia, acids,
detergents or other chemicals may release hazardous gases
irritating to eyes, lungs and mucous membranes.

**"FOR SWIMMING POOL CHLORINATION
AND SANITIZING."**

ACTIVE INGREDIENT
SODIUM HYPOCHLORITE 9.2%
INERT INGREDIENTS 90.8%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

FIRST AID: If on skin, wash with plenty of soap and water. If in
eyes, flush with water for at least 15 minutes. Get medical atten-
tion. If swallowed, drink large quantities of milk, or gelatin solu-
tion or, if these are not available, drink large quantities of water.
Do NOT give vinegar or other acids. Do NOT induce vomiting.
Get prompt medical attention.

See additional precautions on side panel

**DIRECTIONS FOR USE
GENERAL CLASSIFICATION**

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT
IN A MANNER INCONSISTENT WITH ITS LABELING

DIRECTIONS FOR SWIMMING POOL CHLORINATION
For a new pool or for spring start-up, superchlorinate with one (1) pint (16 fl. oz.)
of this sodium hypochlorite solution for each 2500 gallons of water. This dosage is equi-
valent to 5 ppm available chlorine by weight.
For Pool Maintenance:

- A) Adjust pool water pH to 7.6 - 7.2 range and maintain.
- B) Add manually or by a feeder device, 1/2 pint sodium hypochlorite solution or a 1/4 pint
maintain an available chlorine residual of 0.6 to 1.0 ppm. One half pint (8 fl. oz.)
of this sodium hypochlorite solution for each 2000 gallons of water will provide
1.0 ppm available chlorine by weight. Frequency of additions to maintain 2.6 to
3.0 ppm available chlorine will depend upon temperature and number of swimmers.
Use test kit to measure chlorine and pH and chlorine residual in the pool regularly.

**DIRECTIONS FOR DISINFECTION OF POTABLE WATER
FOR HOME WELL WATER SYSTEMS**

Dilute this sodium hypochlorite solution in the ratio of one part sodium hypochlorite
solution to 9 parts softened water. Mix a sodium hypochlorite solution and water thor-
oughly and begin feeding of solution with a hypochlorinator (metering pump). Main-
tain a free available chlorine residual of at least 0.2 ppm and no more than 0.6 ppm
throughout the distribution system, as determined by a DPD chlorine test kit. Re-
quire a water sampling must be conducted at a frequency no less than that prescribed by
the National Sanitation Primary Drinking Water Regulations. Check water frequently
with a DPD chlorine test kit.

Contact your local Health Department for further details.

DIRECTIONS FOR SANITIZING FOOD PROCESSING OR DAIRY EQUIPMENT
Clean equipment in the normal manner. Just before using, rinse all surfaces thoroughly
with the sodium hypochlorite solution containing 200 ppm available chlorine. Main-
tain contact with disinfectant for a minimum of two minutes. Do not rinse with water
after treatment with sodium hypochlorite solution. Do not spill overnight. Addition of
one (1) pint (16 fl. oz.) of this sodium hypochlorite solution per 4 gallons of water will
provide approximately 200 ppm available chlorine by weight.

NOTE: This product degrades with age. Use a chlorine test kit and increase dosage
as necessary to obtain the required level of available chlorine.

STORAGE AND DISPOSAL: Store in cool, dry area away
from direct sunlight. In case of spill, flood area with large quantities of water. If the
empty container is thoroughly washed with water and other residues are removed, it may be
used for other purposes. If not, it should be disposed of in an approved landfill. This product
cannot be used, should be diluted with water and disposed of in a sanitary sewer.
Do not contaminate food or feed by storage, disposal or cleaning of equipment.

A) Your company name and address (street, city, state, Zip Code); (Do not insert name "Jones Chemicals, Inc.")

E) Print your product name here along with label artwork

C) If you already have an EPA Establishment Number, insert it here. Otherwise, contact your nearest EPA Enforcement Office to have an EPA Establishment Number assigned to your company. Final printed label should be submitted to Jones Chemicals, Inc. (Attn: Ruthann Hovey) for official approval even though you are in the process of applying for an EPA Establishment Number. DO NOT SEND LABELS DIRECTLY TO EPA.

D) Net volume, in terms of largest unit present. Such as: 1 gallon (or 1 pint 2 ounces for 18 ounces, etc.).
