HYDRUS 522

ACCEPTED
with COMMENTS
in EPA Letter Dated:

APR 23 1985

Under the Fungicide, Insecticide,
Fungicide, and Pesticide Act
as amended, for the pesticide
registered under EPA Reg. No.

50265-4

ACTIVE INGREDIENT:

Poly(oxyethylene (dimethyliminio) ethylene-
(dimethyliminio) ethylene dichloride) 10.0 %

INERT INGREDIENT 90.0 %

This product contains 0.85 lb. of active ingredient per gallon and weighs
8.49 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

HYDRUS 522 is used to

control algae in swimming pools, exterior spas, whirlpools, hot tubs, and decorative fountains. For maximum effectiveness pools, spas, whirlpools, hot tubs, and decorative fountains with heavy growth of algae should be cleaned prior to using HYDRUS 522.

For pools having just visible algae growth add an initial dose of HYDRUS 522 fluid ounces of HYDRUS 522 per 10,000 gallons of water. For pools with move settled algae debris by cleaning. For treatment of a pool with heavy algae growth add initially 41 to 75 fluid ounces of HYDRUS 522 per 10,000 gallons of water. Subsequent additions of 13 fluid ounces of HYDRUS 522 per 10,000 gallons of water should be made every 7 days after initial treatment for maintenance.

Spas, whirlpools, hot tubs, and decorative fountains having heavy algae growth require an initial dose of 8 to 12 fluid ounces of HYDRUS 522 per 1000 gallons of water. For treatment of a freshly cleaned hot tub or decorative fountain, add initially 4 fluid ounces of HYDRUS 522 per 1,000 gallons of water. For decorative fountains add 1 to 3 fluid ounces of HYDRUS 522 per 1,000 gallons of water. Subsequent additions of HYDRUS 522 should be made every 5 to 7 days after initial treatment for maintenance.

HYDRUS 522 is compatible with chlorine. It can be used to treat pools, spas, and decorative fountains and is compatible with alkaline pH. HYDRUS 522 can be used in decorative fountains treated with chlorine chemicals and may replace the chemicals normally required. However, do not mix HYDRUS 522 with concentrated dry or liquid chlorine products.

STORAGE AND DISPOSAL

STORAGE: Keep container closed when not in use. Containers should be placed in a plastic bag and discarded with clear water. All pesticides should be kept out of reach of children and away from food.

DISPOSAL: Do not reuse empty container. Wrap container for disposal.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

HYDRUS 522 is used to control algae, bacteria, and fungi in recirculating commercial and industrial water cooling towers. Prior to its use, systems must be cleaned to remove algal growth, microbiological slime, and other deposits. An initial slug addition of 6.13 to 15.32 fluid ounces of HYDRUS 522 per 1000 gallons of water to provide a concentration of 48 to 120 parts per million of HYDRUS 522, based on the total weight of water in the system, is recommended. Repeat initial dosage until control is evident.

Subsequent slug additions of 1.53 to 15.32 fluid ounces of HYDRUS 522 per 1000 gallons of water (12 to 120 parts per million of HYDRUS 522) should be employed every 2 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem. Slug additions should be made in the sump of water cooling towers.

HYDRUS 522 is used to control bacteria in industrial air-washing systems that maintain effective mist eliminating components. Prior to its use, systems should be cleaned to remove bacterial slime and other deposits. An initial slug dose of 24.7 to 41.2 fluid ounces of HYDRUS 522 per 1000 gallons of water is recommended. Repeat initial dosage until control is evident. Subsequent slug additions of 16.9 to 41.2 fluid ounces of HYDRUS 522 per 1000 gallons of water should be employed each 1 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleedoff and severity of the bacterial problem. Slug additions may be made to the sump or to the water collection trays of the airwash system.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Do not stack more than four drums high. Leaking or damaged drums should be placed in overpack drums for disposal. Spills should be absorbed in sawdust or sand and disposed of in a sanitary landfill. Keep container closed when not in use.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL:

PLASTIC: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

METAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
