NOTE Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

1. Make the labeling changes indicated below before you release the product for shipment:

A. Add the phrase "EPA Registration No. 123-456" to the label. This phrase must be placed directly below the registration number on the label. Do not use the word "Registered" or "Reregistered" in the label. Do not use the word "Registered" or "Reregistered" in the label.

B. Make the labeling changes indicated below before you release the product for shipment:

a. Add the phrase "EPA Registration No. 123-456" to the label.

b. Please note that according to your Confidentiality Statement of Formula this product contains lead as an active ingredient. Therefore, the label should contain the following statement:

This product contains a trace of lead as an active ingredient, lead.

This statement must be placed directly below the ingredient statement and must be in a type size line or larger, or equal to the headings used in the ingredient statement (the words Active Ingredient and Inert Ingredient).
