Subject: Label Notification(s) for Pesticide Registration PR Notice 2007-4

Dear Dr. Dickens:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 dated June 23, 2011 for:

EPA Registration Number: 50404-5 Permethrin Arthropod Repellent

The Registration Division (RD) has conducted a review of this request for applicability Under PRN 2007-4 and finds that the label change(s) requested falls within the scope of PRN-2007-4. The label has been date-stamped "Notification" and will be placed in our Records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact Melody Banks on 703 305-5413.

Sincerely,

A handwritten signature in cursive script that reads "Richard Gebken".

Richard Gebken
Product Manager
Insecticide Branch
Registration Division (7504P)

2014

Please read instructions on reverse before completing form.

NOTIFICATION

Dear Mr. Gebken:

By notification, our Client, Coulston Products Inc. is adding the following to the subject product label:

Updated the Storage and Disposal heading, statements and "disposal" as described in PR Notice 2007-4. During a review of this label for reregistration, we recognized the Storage and Disposal section was not current. We believe the addition of the updated statements in the correct form (using the existing words) is Notifiable under PR Notice 98-10. We have updated the label to include a properly formatted Storage and Disposal statement.

Enclosed, please find the following:

- a. Application for Pesticide (Other), EPA Form 8570-1
- b. One copy of a highlighted DRAFT label as a reference illustrating all label revisions.
- c. Two copies of the final label.

We would appreciate receiving a copy of the label stamped approved – notification.

If you have any questions or comments regarding this submission, please do not hesitate to contact me at (301) 570-4390 or by e-mail at dickensth@aol.com.

Sincerely,

Timothy H. Dickens

*(3-phenoxyphenyl) methyl (+) *cis/trans* 3-(2,2-dichloroethenyl) 2,2-dimethyl - cyclopropanecarboxylate *Cis/Trans* Ratio: min. 35%(+) *cis* and max. 65%(+) *trans*.

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

See side panel for additional precautions.

Net Contents: 6 oz.

Batch Code [Lot Number]: _____

[]: Indicates alternate text

DIRECTIC FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING.

To be used for treatment of field clothing and mosquito netting only. Make all applications outdoors.

Do not apply to skin. Do not treat field clothing that is being worn. DO NOT TREAT CAP

For protection against ticks and mosquitoes, select an outdoor area protected from the wind, spray outer surfaces of clothing (while not being worn) and mosquito netting with a slow sweeping motion to lightly moisten the surface of the fabric. Treat the clothing for a minimum of 30 seconds on each side and allow 2 hours (4 hours under humid conditions) to dry prior to being worn. Hold can at a distance of 6 to 8 inches from the object being treated. Treatment should moisten the surface of the fabric enough to cause a slight color change. Use approximately 3/4 of this container to treat one complete set of field clothing. Use remainder on mosquito netting.

Treat the entire outside surface of clothing with special attention to sock, trouser cuffs, and shirt cuffs. Pant cuffs should be worn inside the socks or footwear to ensure full protection against ticks and chiggers. This item must be used in conjunction with the standard issue repellent approved for application to exposed skin areas to achieve maximum protection from mosquitoes. Follow standard laundering procedures weekly. Reapply after six weeks and sixth laundering.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry area, inaccessible to children and away from heat and open flame.

Disposal: Do Not Puncture or Incinerate! Nonrefillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Avoid contact with face, eyes, or skin. Avoid breathing vapors or spray mist. Wash thoroughly after handling and before eating or smoking. Do not allow contact with treated surfaces until spray has dried. Do not allow spray to contact food, or water supplies. Thoroughly wash dishes and food handling utensils contaminated with this product.

First Aid

If Inhaled	<ul style="list-style-type: none"> ▪ Remove affected person to well ventilated area, if not already done. ▪ If person is not breathing, call medical officer or personnel or 911, then give artificial respiration, preferably by mouth-to-mouth, if possible. ▪ Call a medical officer, poison control center or doctor for further treatment advice.
If On Skin	<ul style="list-style-type: none"> ▪ Wash affected areas of skin with soap and water. ▪ Call a medical officer, poison control center or doctor for further treatment advice.
If In Eyes	<ul style="list-style-type: none"> ▪ Hold eye open and rinse slowly and gently with water for 15-20 minutes. ▪ Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. ▪ Call a medical officer, poison control center or doctor for further treatment advice.
<p>Have product container with you when calling for help or going for treatment. Questions ???: 800-940-4464 , Weekdays from 9-5 EST.</p>	

NOTE: The First Aid statement's grid format will be used if market label space permits; otherwise a paragraph format will be used.

Physical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.
