Mr. Lawrence J. Feller
 Coulston International, Corporation
 P.O. Box 30
 Easton, PA 18044-0030

Dear Mr. Feller:

Subject: Revised Labeling
 Coulston's Permanone Tick Repellent
 EPA Registration Number 50404-6
 Your Submissions Dated April 3, and April 9, 1991

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable, provided that you make the labeling changes listed below before you release the product for shipment bearing the amended labeling:

1. The letter point size for the child hazard statement (i.e., "Keep Out Of Reach Of Children") must be at least 6 point and the same size as the Storage and Disposal heading. Please revise accordingly.
2. Change "Disposal" to "Storage and Disposal."
3. The alternate product names are acceptable and have been made a part of the record for this product.

Submit five copies of your final printed labeling before you release the product for shipment.

A stamped copy of the labeling is enclosed for your records.

Sincerely,

George T. LaRocca
 Product Manager (15)
 Insecticide-Rodenticide Branch
 Registration Division (H7505C)

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

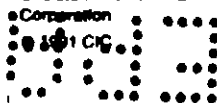

Do not allow use by small children without close adult supervision. Avoid contact with face, eyes, or skin. Avoid breathing vapors or spray mist. Wash thoroughly after handling and before eating or smoking. Do not allow contact with treated surfaces until spray has dried. Do not allow to contact food or water supplies. Thoroughly wash dishes and food handling utensils contaminated with this product.

Statement of Practical Treatment
If swallowed: Call a physician or Poison Control Center. Get medical attention immediately.
If On Skin: Wash affected areas of skin with soap and water.
If In Eyes: Flush eyes with plenty of water. Contact physician if irritation persists.
If Inhaled: Remove affected person to well ventilated area, if not already done. Apply artificial respiration if indicated.

Physical or Chemical Hazards
Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Buyer assumes all risks of use, storage or handling of this product not in strict accordance with directions given herewith.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING.
This product should not be applied to clothing while it is being worn. Under no circumstances should bare skin or clothing on the body be treated.
Do not spray directly on or otherwise allow to come in contact with skin, face, or eyes. This product is to be used as a clothing treatment only. In case of accidental spraying of skin, face or eyes, see "Statement of Practical Treatment" on side panel. Make all applications outdoors.

For protection against ticks and mosquitoes, select an outdoor area protected from the wind, spray outer surfaces of clothing (while not being worn) with a slow sweeping motion to lightly moisten the surface of the fabric, holding can at a distance of 6 to 8 inches. A complete outfit consists of shirt, trousers, and socks. Treat outer surfaces of each outfit, front and back, for 60 seconds each and allow to dry for at least 2 hours (4 hours under humid conditions). Pay particular attention to socks, trouser cuffs, and shirt cuffs. One can will treat two complete outfits. Do not exceed recommended spraying times. Do not retreat clothing more than once every two weeks. In heavily infested areas protection from ticks will be improved by either wearing the cuffs inside footwear or taping pant cuffs around legs. Protection from mosquitoes can be further enhanced by applying an EPA approved repellent to face, hands and other exposed areas of the body.

DISPOSAL

Replace cap, wrap empty container in several layers of newspaper and dispose of in trash. Do not incinerate or puncture.
