Mr. Lawrence J. Feller
Coulston International, Corporation
P.O. Box 30
Easton, PA 18044-0030

Dear Mr. Feller:

Subject: Revised Label Amendment
Coulston's Permethrin Tick Repellent
EPA Registration Number 50404-6
Your Submission Dated May 27, 1992

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records.

At the next label printing, please make the following changes:

1. The words "ACTIVE INGREDIENT" and "INERT INGREDIENTS" should be aligned to the same margin and be equally prominent.
2. Correct "pysical" to "physical" in "Physical and Chemical Hazards."

Sincerely,

George T. LaRocca
Product Manager (13)
Insecticide-Rodenticide Branch
Registration Division (H7505C)

AUG 17 1992

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

50404-6

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION

Do not allow use by small children without close adult supervision. Avoid contact with face, eyes, or skin. Avoid breathing vapors or spray mist. Wash thoroughly after handling and before eating or smoking. Do not allow contact with treated surfaces until spray has dried. Do not allow to contact food or water supplies. Thoroughly wash dishes and food handling utensils contaminated with this product.

Statement of Practical Treatment

If Swallowed: Call a physician or Poison Control Center. Get medical attention immediately.

If On Skin: Wash affected areas of skin with soap and water.

If In Eyes: Flush eyes with plenty of water. Contact physician if irritation persists.

If Inhaled: Remove affected person to well ventilated area, if not already done. Apply artificial respiration if indicated.

Physical or Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

Buyer assumes all risks of use, storage or handling of this product not in strict accordance with directions given herewith.

DIRECTIONS FOR USE

4 of 4

It is violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING. This product should not be applied to clothing while it is being worn. Under no circumstances should bare skin or clothing on the body be treated.

Do not spray directly on or otherwise allow to come in contact with skin, face, or eyes. This product is to be used as a clothing treatment only. In case of accidental spraying of skin, face or eyes, see "Statement of Practical Treatment" on side panel. Make all applications outdoors.

For protection against ticks and mosquitoes select an outdoor area protected from the wind, spray outer surfaces of clothing (while not being worn) with a slow sweeping motion to lightly moisten the surface of the fabric, holding can at a distance of 6 to 8 inches. (A complete outfit consists of shirt, trousers, and socks.) Treat outer surfaces of each outfit, front and back, for 60 seconds each and allow to dry for at least 2 hours (4 hours under humid conditions). Pay particular attention to socks, trouser cuffs, and shirt cuffs.

Directions for use "Option" to complement package size:

- 3 oz. net package: One can will treat one complete outfit.
- 6 oz. net package: One can will treat two complete outfits (already approved)
- 9 oz. net package: One can will treat three complete outfits.
- 12 oz. net package: One can will treat four complete outfits.

Do not exceed recommended spraying times.

Do not retreat clothing more than once every two weeks. In heavily infested areas protection from ticks will be improved by either wearing the cuffs inside footwear or taping pant cuffs around legs. Protection from mosquitoes can be further enhanced by applying an EPA approved repellent to face, hands and other exposed areas of the body.

STORAGE AND DISPOSAL

Replace cap, wrap empty container in several layers of newspaper and dispose of in trash. Do not incinerate or puncture.
