SIDE PANEL.

## DIRECTIONS FOR USE

**It is a violation of Federal law to use this product in a manner inconsistent with its labeling.**

**SHAKE WELL BEFORE USING.** This product should not be applied to clothing while it is being worn. Under no circumstances should bare skin or clothing on the body be treated.

Do not spray directly on or otherwise allow to come in contact with skin, face, or eyes. This product is to be used as a clothing treatment only. In case of accidental spraying of skin, face or eyes, see "Statement of Practical Treatment" on side panel. Make all applications outdoors.

For protection against ticks and mosquitoes select an outdoor area protected from the wind, spray outer surfaces of clothing (while not being worn) with a slow sweeping motion to lightly moisten the surface of the fabric, holding can at a distance of 6 to 8 inches. (A complete outfit consists of shirt, trousers, and socks.) Treat outer surfaces of each outfit, front and back, for 60 seconds each and allow to dry for at least 2 hours (4 hours under humid conditions). Pay particular attention to socks, trouser cuffs, and shirt cuffs.

### Directions for use "Option" to complement package size:

- 3 oz. net package: One can will treat one complete outfit.
- 6 oz. net package: One can will treat two complete outfits.
- 9 oz. net package: One can will treat three complete outfits.
- 12 oz. net package: One can will treat four complete outfits.

Do not exceed recommended spraying times.

Do not retreat clothing more than once every two weeks. In heavily infested areas protection from ticks will be improved by either wearing the cuffs inside footwear or taping pant cuffs around legs. Protection from mosquitoes can be further enhanced by applying an EPA approved repellent to face, hands and other exposed areas of the body.

## STORAGE AND DISPOSAL

Replace cap, wrap empty container in several layers of newspaper and dispose of in trash. Do not incinerate or puncture.
