Subject: Notification per PRN 98-10 – Adding marketing statements and graphics
Product Name: COULSTON'S DURANON INSECT REPELLENT
EPA Registration Number: 50404-8
Application Date: 16 April 2019
Decision Number: 550872

Dear Dr. Dickens:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you have any questions, you may contact Dr. Helen Hull-Sanders at 703-347-0243 or via email at hull-sanders.helen@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "C. Aubee".

Catherine Aubee, Chief
Invertebrate-Vertebrate Branch 1
Registration Division (7505P)
Office of Pesticide Programs

NOTIFICATION

This Coulston Controlled Release insect repellent uses the patented Sub Micron Encapsulation technology as developed by Coulston Products Inc. This process evens out the evaporation rate of DEET by encapsulating the DEET in a protein. Each application provides effective protection while at the same time limiting the skins exposure to DEET thereby significantly reducing possible deet absorption.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
CAUTION**

Avoid contact with eyes. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

NOTE The First Aid statements grid format will be used if market label space permits otherwise a paragraph format will be used

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
READ AND FOLLOW ALL DIRECTIONS AND PRECAUTIONS ON THIS PRODUCT LABEL. Use Restrictions Apply this product only to exposed skin as specified on this label. Do not use it near food. Do not use under clothing. Do not apply near eyes and mouth and apply sparingly around ears. Never use repellents over cuts, wounds or irritated skin. Do not allow children to handle this product and do not apply to children's hands. Do not use on infants. Do not apply more than 3 times per day to children ages twelve (12) and under. [Will not damage cotton wool or nylon] Do not apply on or near acetate rayon Spandex or other synthetic fabrics (other than nylon) furniture plastics (such as eyeglasses and watch crystals) leather and painted or varnished surfaces (including automobiles). **Use of this product may cause skin or allergic reactions in rare cases. If you suspect a reaction to this product, discontinue use, wash treated skin and call your local poison control center. If you go to a doctor, take this repellent product with you**

Application: Squeeze into one hand rub hands together and apply thoroughly in a thin layer to the forearms. Use additional lotion for upper arms. Repeat for other exposed areas. To apply to face,

squeeze lotion into palm of hand and spread sparingly on face and neck. When using on children apply to your own hands and then put it on the child. Use just enough repellent to cover exposed skin. Wipe excess from hands after applying. Avoid over application of this product. Heavy application and saturation is unnecessary for effectiveness. For maximum protection, spread evenly with hand to moisten all exposed skin. If biting insects do not respond to a thin film of repellent, apply a bit more. After returning indoors wash treated skin with soap and water or bathe. This is particularly important when this product is used repeatedly in a day or on consecutive days.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Keep this product in its tightly closed original container when not in use. Store in a cool dry (preferably locked) area that is inaccessible to children and animals.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. *If empty* Place in trash or offer for recycling if available. *If partly filled* Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
