## PRECAUTIONARY STATEMENT: HAZARDS TO HUMANS AND DOMESTIC ANIMALS

### DANGER:

Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash all contaminated clothing before reuse.

### ENVIRONMENTAL HAZARD:

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

### PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT:

Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire or explosion. In case of contamination and/or decomposition, do not reseal the container. If possible, isolate this container in open air or well-ventilated area. Flood with large volumes of water, if necessary.

## KEEP OUT OF REACH OF CHILDREN

### DANGER

### FIRST AID - Oxidizer 5.1

If Swallowed	<ul style="list-style-type: none"> <li>■ Call poison control center or doctor immediately for treatment advice.</li> <li>■ Drink large amounts of water.</li> <li>■ Do not induce vomiting unless told to do so by the poison control center or doctor.</li> <li>■ Do not give anything by mouth to an unconscious person.</li> </ul>
If on skin or clothing	<ul style="list-style-type: none"> <li>■ Take off contaminated clothing.</li> <li>■ Rinse skin immediately with plenty of water for 15-20 minutes.</li> <li>■ Call a poison control center or doctor for treatment advice.</li> </ul>
If in eyes	<ul style="list-style-type: none"> <li>■ Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li> <li>■ Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>■ Call a poison control center or doctor for treatment advice.</li> </ul>
If inhaled	<ul style="list-style-type: none"> <li>■ Move person to fresh air.</li> <li>■ If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.</li> <li>■ Call a poison control center or doctor for further treatment advice.</li> </ul>
<p>Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-222-1222 for emergency medical treatment information.</p>	
<p><b>NOTE TO PHYSICIAN:</b> Probable mucosal damage may contraindicate the use of gastric lavage.</p>	

## CHLORINATING TABLETS

These tablets can be added directly or by automatic dispensers for the sanitization or shock chlorination of water in wells, storage tanks or cisterns in those areas where treated water supplies are not available.

### ACTIVE INGREDIENT:

Calcium Hypochlorite.....72%  
OTHER INGREDIENTS.....28%  
TOTAL.....100%  
(AVL Chlorine 72%)  
Pellet Weight: 1 Gram

### DIRECTIONS FOR USE

**IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.**

This product is intended to be used for treating water in wells, storage tanks or cisterns to sanitize until water is consumed. It is not intended to replace safe, properly constructed wells.

**EPA recommends for human consumption: 0.2 to 0.6 ppm to be determined by using a test kit provided by your chlorination dealer.** One pellet normally treats 20 gallons of average well water. These pellets are designed to dissolve in less than 1 hour. Consult the manufacturers installation book for the proper dispensing, installation and adjustment so that the required chlorine residual can be maintained at all times. For shock chlorination of water supplies, use three quarters (3/4) pound chlorinating tablets (approximately 340 tablets) for each 100 gallons of water in the system to produce 500 ppm chlorine concentration. Allow the chlorinated water to stand in the system for 8-24 hours. After this, open an outside faucet and flush system until water returns to 0.2 to 0.6 ppm chlorine concentration using a chlorine test kit. Repeat as necessary the flush operation on each faucet in the system.

Always follow the sanitizing procedure required by applicable state or local laws. Shock chlorination does not permanently disinfect a water supply that has an on going contamination problem.

### STORAGE AND DISPOSAL

Keep this product **DRY** in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area, away from heat or open flame. In case of decomposition, isolate the container if possible, and flood the area with large amounts of water to dissolve all material before discarding container. **DO NOT REUSE THE EMPTY CONTAINER**, but place in trash collection. Do not contaminate food or feed by storage or disposal, or cleaning of the equipment. Triple Rinse (or equivalent). Then offer for recycling or reconditioning, OR puncture and dispose of in a sanitary landfill, OR incineration, OR if allowed by state and local authorities, by burning. If this container is burned, stay away from the smoke. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticides, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or Hazardous Waste representative at the nearest EPA Regional office for your information and guidance.
