Ectrin[®] Insecticide Strips

Ectrin[®] Insecticide Strips For Horses

Now, you can control face flies and horn flies on your horse without fly sprays, without mixing or measuring. The insecticidal strips control face flies and horn flies, and aid in controlling house flies and stable flies without time-consuming daily applications of fly repellent. These strips are the newest and easiest way to control flies, and free you from the daily chore of applying fly spray directly to your horse.

The long, slim insecticidal strips are uniquely designed to give optimum coverage to areas of the horse where flies are likely to be most annoying. As the impregnated strip swings and brushes the hair coat, the effective, long-lasting insecticide is released to do its work.

Directions for Use

General Classification

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not use on horses intended for human consumption.

For control of face flies and horn flies, and as an aid in the control of house flies and stable flies, the insecticidal strips should be placed on your horse when pests first appear. Strips may remain effective up to 4-5 months, often giving full season control. They may be fastened to your horse's tail, mane or halter simply and quickly using the strip attachment system. When attached according to directions, it will allow the strips to swing freely as the horse moves, brushing the coat as it swings.

Precautionary Statements Hazards to Humans Caution

Wash thoroughly with soap and water after handling and before eating or smoking. Avoid contamination of feed and foodstuffs.

Environmental Hazards

This pesticide is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by disposal of used strip. Use this product only as specified on this label.

Storage and Disposal

Store in original container, in a cool place inaccessible to children. Dispose of spent insecticide strips and original container by securely wrapping in several layers of newspaper and discard in trash. Do not reuse carton container. Discard carton in trash.
