Subject: Label Amendment – Updates to marketing claims
Product Name: Pro-Treat-151J
EPA Registration Number: 50584-7
Received Date: March 3, 2020
Action Case Number/Decision Number: 00219779

Dear Abigail Wacek:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Assurance.

EPA Reg. No. 50584-7

Action Case Number/Decision No. 00219779

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Tara Flint via email at flint.tara@epa.gov.

Sincerely,

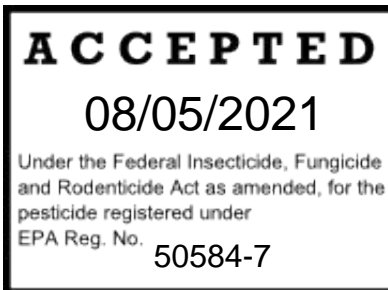

A handwritten signature in black ink, appearing to read 'Aline Heffernan', with a stylized flourish at the end.

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals.

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if absorbed through the skin, or inhaled. Harmful if swallowed. Avoid contact with skin or clothing. Do not get in eyes, on skin or on clothing. Wear face shield or goggles, protective clothing and rubber gloves when handling. Wear a minimum of a NIOSH-approved particulate filtering facepiece respirator with any N, R or P filter;

{Administrative Note: Bracketed text [] is optional version of text for different packaging.}

OR a NIOSH-approved elastomeric particulate respirator with any N, R or P filter; OR a NIOSH-approved powered air-purifying respirator with a HE filter. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco, or using the toilet. Remove contaminated clothing and wash clothing before reuse.

PRO-TREAT-151J tablets penetrate and stop the (black) algae^[*], fungi and bio-fouling that can plug drain pans, drain lines and foul humidifier pads.[They] [PRO-TREAT-151J tablets] eliminate the odors caused by these organisms. [These tablets] [PRO-TREAT-151J tablets] are 100% soluble, easy to use and do not form any deposits in the pan or drain line. [These tablets] [PRO-TREAT-151J tablets] eliminate odors and maintenance problems from overflow and water damage caused by fouled pans, plugged traps or drains lines. [They] [PRO-TREAT-151J tablets] are for use in evaporative [humidifier base trays] [humidifier pans] and are not intended for use in humidifier reservoirs.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Use at least two PRO-TREAT-151J tablets for the initial dose to clean out bio-fouling from algae, fungus and slime. To maintain treatment, simply place one [PRO-TREAT 151] tablet in the drain pan once a month. For best results, [PRO-TREAT 151] tablets should be placed in the drain pan so that condensate moistens the tablet as it flows down the pan and into the drain line. To keep drain pans algae, fungi, odor and slime free, use at least one [PRO-TREAT 151] tablet for each three tons of system cooling capacity.

HUMIDIFIERS

Every four to six weeks, add one PRO-TREAT-151J tablet to the bottom of the humidifier tray to control algae, fungus, scale and odor. Use [PRO-TREAT 151] [the] tablets to keep pads and humidifiers clean and scale free, increase efficiency, lengthen plate life and protect against rust. To properly treat humidifiers in hard water areas, or with larger reservoirs, two or more [PRO-TREAT 151] tablets may be required. Rinse the reservoir periodically before adding additional [PRO-TREAT 151] tablets. Add new tablet after previous tablet has completely dissolved.

[*- Not an Approved Use on this Organism in California]

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store only in original container. Do not reuse empty container. If a leaky container must be contained within another, mark the outer container to identify the contents. Store pesticides away from food, pet food, feed, seed, fertilizers, and veterinary supplies. Keep this product under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use.

PESTICIDE DISPOSAL: Open dumping is prohibited. Pesticide wastes may be hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER HANDLING: Non-refillable container. Do not reuse this container to hold materials other than pesticides or rinsate. After emptying and cleaning, it may be allowable to temporarily hold rinsate or other pesticide-related materials in the container. Contact your state regulatory agency to determine allowable practices in your state. **RESIDUE REMOVAL INSTRUCTIONS:** Triple rinse container (or equivalent) promptly after emptying. Triple Rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for
