

05 MAR 1992

Mr. Al Davis  
Davis Manufacturing  
541 Proctor Avenue  
Scottsdale, GA 30079

Dear Mr. Davis:

Subject: Revised Labeling  
Davis Pyrethrins Dip and Spray  
EPA Registration Number 50591-3  
Submission dated February 17, 1992

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Submit one (1) copy of the final printed labeling prior to releasing the product for shipment.

1. Delete "Petroleum Distillate" from the active ingredient statement on the label and combine this percentage with the total for the inert ingredients. Do not list petroleum distillate separately. Add a footnote to the ingredients statement declaring "Contains petroleum distillate".
2. Revise the ENVIRONMENTAL HAZARD statement as follows:  
  
This product is toxic to fish. Do not dispose of in lakes, streams, or open ponds. Do not contaminate water when disposing of equipment washwaters.
3. Delete the statement "Contains Natural Pyrethrins" from the product label. You may declare "Contains Pyrethrins".

Sincerely,

RFM

Richard F. Mountfort  
Product Manager (10)  
Insecticide-Rodenticide Branch  
Registration Division

# DAVIS PYRETHRINS DIP and

## DIRECTIONS

It is a violation of Federal law to use this product in a manner inconsistent with the directions.

**SHAKE WELL BEFORE USING.** To make a dip, the concentrate should first be diluted in water. Add the required amount of concentrate to the water and blend thoroughly. This will form a stable emulsion.

To kill fleas and ticks on dogs and cats, use the following directions for protection against reinfestation:

- 1) Dilute 1/2 oz. (1 tbsp.) of concentrate per 1 gallon of water. For severe flea infestation, dilute 1 oz. (2 tbsp.) of concentrate per 1 gallon of water.
- 2) Wet the animal by dipping.

To control fleas and brown dog ticks on the environment, follow these steps:

- 1) Dilute 4 oz. of concentrate per 1 gallon of water.
- 2) Thoroughly spray infested areas, pet beds, animal quarters, nearby cracks and crevices, skirting boards, and behind baseboards, moldings, window and door frames and localized areas of floor and floor covering. Fresh bedding should be placed in animal quarters following treatment.

ACCEPTED  
with COMMENTS  
in EPA Letter Dated  
05 MAR 1992

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, registered under EPA Reg. No. 50591-3

STORAGE

DISPOSAL

Do not reuse empty container. Wrap container in newspaper and discard in trash.

PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS

CAUTION

Harmful if swallowed. Do not get in eyes, nose, or mouth. Wash thoroughly after each use and before eating or drinking.

HAZARDS TO DOMESTIC ANIMALS

Do not apply directly to or on eyes, nose, or mouth. Do not treat or cause exposure to kittens or puppies.

STATEMENT OF PRACTICE

If swallowed: Contact a physician or veterinarian. Do not induce vomiting. This product is not for use on cats. Vomiting may cause aspiration pneumonia. If in eyes or on skin: Flush affected area with water. Consult a physician if irritation persists.

ENVIRONMENTAL PRECAUTIONS

This product is toxic to fish. Do not use in or near open ponds. Do not use in or near streams.

PHYSICAL OR CHEMICAL CHARACTERISTICS

Do not use or store near heat or open flame.

Buyer assumes all risks of use, storage, and disposal. Not in strict accordance given herewith.
