EPA Est. No. 50591-GA-1

EPA Reg. No. 50591-14

NET CONTENTS: 16 FL. OZ.

**DIRECTIONS FOR USE
USE ONLY IN A WELL VENTILATED AREA**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

HOLD BOTTLE IN UPRIGHT POSITION WHEN SPRAYING

CATS AND DOGS: Cover animal's eyes with hands. With a firm stroke to get a proper spray mist, spray head, ears and chest until damp. With fingertips, rub into face around mouth, nose and eyes. Then spray neck, middle and hind quarters, finishing legs last. For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long haired dogs, rub your hand against the lay of the hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. Repeat treatment as needed.

PUPPIES and KITTENS: Treat same as cats and dogs except nursing puppies and kittens. Spray only along back or on your fingertips and rub in.

PET'S SLEEPING QUARTERS: Spray around baseboards, windows, door frames, wall cracks and local area of floors. If mosquitoes, gnats or flies are present, spray lightly into the air. Repeat as needed. The pet's bedding should be sprayed, making sure the area beneath the bedding is sprayed. After spray has dried, remove old bedding and replace with fresh bedding. Treat pets with one of our registered Flea & Tick control products before allowing them to enter treated area.

STORAGE: Do not use or store near heat or open flame.

DISPOSAL: Do not reuse container. Wrap and put in trash.
