

Reg # 50654-2

PM-15

1986

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (75-767) WASHINGTON, DC 20460	EPA REGISTRATION	DATE OF ISSUANCE
	50654-2	AUG 28 1990
	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide and Rodenticide Act, as amended)	NAME OF PESTICIDE PRODUCT	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

[Handwritten: 161 / 18 / 16807]

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with the FIFRA section 2(d)(A) and you are required to:

1. Submit a complete data package to the Registration Division, Office of Pesticides Programs, Washington, DC 20460, within 180 days of the date of receipt of this notice.

2. Submit the data listed below, completed in accordance with the test methods and guidelines (40 CFR Part 158) and requirements for registration) no later than one year from receipt of the Notice of Registration:

- a. Acute Toxicity Study - Guideline Reference 63-13.
- b. Chronic Toxicity Study - Guideline Reference 63-14.
- c. Product Chemistry (Guideline Reference 63-15)
- d. Statement of Compatibility - Guideline Reference 63-16.
- e. Discussion of Unintentional Ingredients - Guideline Reference 63-17.
- f. Storage Stability - Guideline Reference 63-17. (A complete study with actual data at time zero and during one year of storage)

- 3. In reference to the Confidential Statement of Formula (CSF), please provide the following:
 - a. pH of product or pH at a specified water dilution
 - b. Density of product
 - c. Flash point of product or indicate not applicable
 - d. The total in item 17 does not add to 1000 K. Please make the necessary corrections.

- 4. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 50654-2."
 - b. Since your data matrix does not provide a dielectrical breakdown voltage, you must add the following statement to the Physical or Chemical Hazard heading:

Do not use this product in or on electrical equipment due to the possibility of shock hazard.
 - c. Revise your label in accordance with comments 3a through h of our August 1, 1990 letter.

- 5. Submit five copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

George T. LaRocca
 Product Manager 15
 Insecticide-Rodenticide Branch
 Registration Division (H7505C)

AUG 28 1990

Perycut-Chemie AG

Under the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act, this pesticide is registered for the use stated on the label. EPA Reg. No. 50654-2

INSEKTENKILLER - TOPICAL

(Multiple-purpose insecticide spray)

Keep out of reach of children.

CAUTION

(See back panel for additional precautionary statements)

NET WT. _____

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Avoid contact with skin or clothing. In case of contact, wash skin with plenty of soap and water. Avoid contamination of feed and foodstuffs.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.

SHAKE WELL BEFORE USING. Point valve attachment from the pump toward target area. Do not remain in treated area and ventilate the area after treatment is completed. NOTE: Do not contaminate food, utensils, dishes or drinking water. Food should be removed or covered during treatment. All food processing services should be covered during treatment or thoroughly cleaned before using. When using the product in these areas, apply only when the facility is not in operation. Remove pets, birds and cover fish aquariums before spraying. Do not spray on furniture.

INDOORS - FOR HOUSE FLIES, MOSQUITOES, AND GNATS - Close all doors and windows. Adjust spray nozzle for fine mist and point upward. Direct spray mist to all parts of the room, especially near windows and other light sources which attract these insects. After the room is filled with the mist, leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed.

INDOORS - FOR CRAWING INSECTS - Roaches, fleas, earwigs, sowbugs, spiders and centipedes: Adjust spray nozzle for coarse spray droplets. Spray thoroughly toward hiding places, such as cracks, crevices, moist areas, firewood piles, openings around pipes and sinks, under refrigerators, baseboards, and storage areas. Spray directly on insects where possible. Repeat as necessary.

INDOORS - ANTS: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

INDOORS - DOG FLEAS: To reduce reinfestation of areas infested with dog and cat fleas, thoroughly spray the animal's bedding and other resting areas. Treat these areas at the rate of 2 seconds per linear foot while spraying at a distance of 12 to 18 inches from target. Also spray entire inside service of dog houses. Repeat as necessary.

OUTDOORS - TO KILL FLYING INSECTS - Adjust spray nozzle for fine mist. Spray areas infested with mosquitoes, gnats (midges), house flies, biting flies and pyralid and noctuid flying moths. Follow precautions listed above. Hold nozzle 18 to 24 inches from shrubs, bushes, and grassy areas. Spray these areas with a slow sweeping motion at the rate of from 1 to 3 seconds per cubic yard of space while moving away from treated areas. To reduce annoyance from these flying insects, treat open porches and patios in a similar manner. Spray only when the air is still. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

OUTDOORS - ANTS: Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

OUTDOORS - SPIDERS: Direct short bursts of spray on spiders and repeat as necessary.

OUTDOORS - WASPS: Application should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places, contacting as many insects as possible. Repeat as necessary.

DISPOSAL:

Do not reuse empty pesticide containers other than the application equipment. Wrap the container and put into trash collection.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
