Dear Mrs. Laird:

Subject: Amendment - Revised Labeling
Insekten Killer
EPA Registration No. 50654-2
Insectkiller Cockroach Carpet
EPA Registration No. 50654-4
Your Letter Dated June 9, 1993

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes indicated below prior to release for shipment of product bearing the amended labeling.

1. For EPA Reg. No. 50654-2:
 - a. The statement "Do not use in USDA Meat and Poultry Plants" must be retained on the labeling.
 - b. The claim "Keeps Killing for Weeks" must be qualified with a specific amount of time as demonstrated by the efficacy data or deleted.
 - c. Since the precautionary statement appear on the back panel the signal word CAUTION must follow the heading Precautionary Statements.

Submit five copies of your final printed labeling before you release the product for shipment. A stamped copies of the labeling are enclosed for your records.

Sincerely yours,

George T. LaRocca

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labelling.

READ ENTIRE LABEL, USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.

Shake well before using. Point valve attachment from the pump towards target area. Do not remain in treated area. Ventilate the area after treatment is completed.

NOTE: Do not contaminate food, utensils, dishes or drinking water. Do not use in food/feed areas of food/feed handling establishments, restaurants or other processing areas. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms, but excluding areas where foods may be prepared or held.

Non-food/feed areas: Garbage rooms, lavatories, floor drains (to sewer entries and vestibules), offices, locker rooms, machine rooms, garages, map closets and storage (after canning or bottling). In the home cover all food handling surfaces and cover or remove all food and cooking utensils, or wash thoroughly after treatment. Remove pets, birds and cover fish aquariums before spraying. Do not spray on furniture.

INDOORS

House Flies, Mosquitos and Gnats: Close all doors and windows. Adjust spray nozzle for fine mist and point upward. Direct spray mist to all parts of the room, especially near windows and all other light sources which attract insects. After the room is filled with the mist, leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed.

Crawling Insects: Roaches, flies, silverfish, earwings, sowbugs, mites, spiders and centipedes: Adjust spray nozzle for coarse spray droplets. Spray thoroughly towards hiding places, such as cracks, crevices, moist areas, firewood piles, openings around pipes and sink, under refrigerators, baseboards, and storage areas. Spray directly on insects where possible. Repeat as necessary.

Ants: Spray trails, nest and points of entry. Spray on ants where possible. Repeat as necessary.

Dog Fleas: To reduce fleas, thoroughly spray these areas at the rate of a distance of 12 to 18 inches from the service of dog house.

OUTDOORS

Flying Insects: Adjust spray nozzle for fine mist with mosquitos, gnats and noctuid moths: to 24 inches from space with slow sweeping yard of space while annoyance from these insects dissipate before occur. A similar manner. Spiders: Direct spray at rest. Spray liberal many insects as possible.

PRECAUTIONARY STATEMENTS

Domestic Animals: Avoid contact with skin, eyes or clothing. Avoid handling. Avoid contact with children.

In case of skin contact with affected area with water.

Do not use this product in the possibility of a shock.

Do not reuse empty equipment. Wrap containers.

Buyer assumes all responsibility with directions.
