BLUE LUSTRE® FLEA KILLER FOR CARPETS

Treats Four 10 x 10 Carpets (400 Sq.Ft.)

DIRECTIONS: Shake well before using. Punch plastic seal. For use on carpets*, hold upside down and shake powder evenly across surface. Brush lightly with a broom to allow powder to penetrate carpet fibers. Wait 60 minutes, then vacuum. (Use new vacuum cleaner bag). For severe problems or where ticks are known to be hiding, wait 2 to 3 hours before vacuuming. If powder adheres to spot, brush it out and vacuum immediately. **APPLY TO DRY SURFACES ONLY.** Do not allow powder to become wet. For use on upholstery*, remove all loose cushions. Sprinkle along creases, in corners, Brush gently, wait 60 minutes, vacuum. Sprinkle along underside of furniture. Do not use on exposed fabric; may cause staining. Remove bag from vacuum cleaner. Wrap securely in several layers of newspaper and discard in trash.

* To prevent a second generation from Flea eggs in the carpet, repeat treatment in 7 days.

*Test on hidden surface of carpet or upholstery before using. If texture or color is affected, do not use.

* Clean carpets after using BLUE LUSTRE® Flea Killer For Carpets.

AMENDMENT >>> DIRECTIONS FOR USE (Cont.)

FLEA CONTROL for CATS & DOGS

Punch plastic seal. Hold upside down and sprinkle powder over pet.

Sprinkle the powder over animals back; head to tail, around the neck and ears, the underbelly, the legs, the base of the tail and where fleas are seen; keeping out of pet's eyes and face. Rub in against the lay of the hair until powder penetrates to skin. Repeat once weekly if necessary.

In addition to fleas; ticks and lice will also be killed when contacted by the powder. Do not treat puppies or kittens under 4 weeks old. Treat pet sleeping quarters and replace with freshly laundered bedding. For continued control repeat every 3 to 4 weeks during the season.

() OPTIONAL LABEL AND/OR BROCHURE COPY.....

FOR PET LIVING QUARTERS

This product kills fleas, ticks and lice on contact. It is non-residual and is designed for use where a chemical residue may be objectionable. Treat pet bedding & sleeping quarters liberally using 15 to 20 "sprinkles"(approximately 1 ounce) over a 50 Sq. Ft. area. Treat pet resting areas such as infested basements, garages, and beneath porches at the rate of 5 ounces per 250 Sq.Ft. Allow dust to remain for 3 to 4 hours & then, where necessary, sweep-up & discard as instructed under Storage and Disposal. To prevent a second generation from flea eggs repeat treatment in 5 to 7 days or as needed.

NOTE: Apply to your pet while out-of-doors or in a well ventilated area to avoid breathing airborne dust. If pets frequent the out-of-doors plan on repeat treatments at 2 to 3 week intervals during the season. Pets may be bathed and groomed several hours after treatment to remove dead fleas, ticks and lice.
