ACTIVE INGREDIENT:

Poly(oxyethylene (dimethyliminio) ethylene-
(dimethyliminio) ethylene dichloride) 10.0 %

INERT INGREDIENT 90.0 %

This product contains 0.85 lb. of active ingredient per gallon and weighs 8.49 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

_____ is used to control algae, bacteria, and fungi in recirculating commercial and industrial water cooling towers. Prior to its use, systems must be cleaned to remove algal growth, microbiological slime, and other deposits. An initial slug addition of 6.13 to 15.32 fluid ounces of _____ per 1000 gallons of water to provide a concentration of 48 to 120 parts per million of _____ based on the total weight of water in the system, is recommended. Repeat initial dosage until control is evident.

Subsequent slug additions of 1.53 to 15.32 fluid ounces of _____ per 1000 gallons of water (12 to 120 parts per million of _____) should be employed every 2 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem. Slug additions should be made in the sump of water cooling towers.

_____ is used to control bacteria in industrial air washing systems that maintain effective mist eliminating components. Prior to its use, systems should be cleaned to remove bacterial slime and other deposits. An initial slug dose of 24.7 to 41.2 fluid ounces of _____ per 1000 gallons of water is recommended. Repeat initial dosage until control is evident. Subsequent slug additions of 16.9 to 41.2 fluid ounces of _____ per 1000 gallons of water should be employed each 1 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleedoff and severity of the bacterial problem. Slug additions may be made to the sump or to the water collection trays of the airwash system.

STORAGE & DISPOSAL: Keep container closed when not in use. Do not contaminate water, food, or feed by storage, disposal or cleaning of equipment. Rinseate that cannot be used or reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Open dumping is prohibited.

- METAL CONTAINERS:** Triple rinse and offer for recycling, reconditioning, or disposal in an approved landfill or bury in a safe place.
- PLASTIC CONTAINERS:** Do not reuse empty container. Triple rinse and incinerate or dispose of in an approved landfill or bury in safe place.

U.S. ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDE REGISTRATION
WASHINGTON, D.C. 20460

EPA REGISTRATION NO.

NOV 4 1983

NAME OF REGISTRANT

NOTICE OF PESTICIDE:

Under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), the following pesticide is being registered:

NAME OF PESTICIDE

NAME AND ADDRESS OF REGISTRANT (SEE INSTRUCTIONS)

NOTE: Copies of labels for this pesticide must be prepared in accordance with this registration must be prepared and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this pesticide, always refer to the above U.S. EPA registration number.

On the basis of the information submitted, the following pesticide is hereby Registered/Registered under the Federal Insecticide, Fungicide, and Rodenticide Act.

As a condition of registration, the Registrant is required to return the following:

Registration fee of \$100.00 per active ingredient (AI) per year of registration. In order to protect health and the environment, the Agency has determined that the following information is required for the registration of a pesticide under the FIFRA Act. The Registrant is required to provide the information requested in the following sections. A copy of the information requested is attached to this notice of registration. The information requested has been received by the Agency.
