Control Solutions For Your Wildlife

deer & rabbit Deer Away®

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Restrictions: This product may be used to repel black-tailed deer (mule deer), white-tailed deer and Roosevelt elk that browse or uproot conifer seedlings. This product may also be used to repel white-tailed deer from yew, Scotch pine, arborvitae, Douglas fir, flowering crabapple, hemlock, honeysuckle, azalea, rhododendron, fruit and citrus trees, and ornamental shrubs. Do not use this product on edible crops. See specific directions for application to fruit and citrus trees. Store at room temperature. Freezing makes DEER AWAY® unusable. Protect from heat and freezing.

Application Directions: Before applying, read and understand all label instructions. SHAKE WELL BEFORE USING. Spray DEER AWAY® on all areas of plants likely to be browsed. Do not apply extensively to seedlings.

Timing of Treatment: To protect against winter browsing, apply DEER AWAY® upon onset of browsing. If browsing extends beyond two months, seedlings may be re-treated. To protect against spring browsing or new growth, apply upon onset of browsing, but preferably after bud break and before new shoots exceed 1" in length. Do not re-treat new growth if spring browsing reaches unacceptable proportions before bud break. DEER AWAY® may be applied to unopened buds, but must then be re-applied after new growth averages 4" in length if browsing still persists.

Weather Conditions: Apply only to dry plants, and only under conditions favoring prompt drying of spray (lightly breezy), mild dry weather with low relative humidity.

Yew, Scotch Pine, Arborvitae, Douglas Fir, Flowering Crabapple, Hemlock, Honeysuckle, Azalea and Rhododendron: Apply to terminal to point of run-off. For large trees, apply DEER AWAY® only to lateral branches that are within animal's reach. Repeat as necessary.

Ornamental Shrubs: DEER AWAY® is not recommended for use during bud break or flower bloom, as foliage injury and petal drop may occur.

Fruit and Citrus Trees: For use on bearing and non-bearing trees. Use only when trees are dormant, not when actively growing.

Note: Browning and drop of old needles may occur on some evergreen species after using this product.

Precautionary Statements

Hazards to Humans and Domestic Animals

Caution: Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling.

First Aid

If on Skin or Clothing:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If in Eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Contact 1-800-858-7378 for emergency medical treatment advice.

Environmental Hazards

Keep out of lakes, streams or ponds. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by equipment cleaning or waste disposal.

0 36348 05202 9

Storage and Disposal

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Store only in a cool, dry area inaccessible to children and pets. Protect from freezing and heat. Keep container tightly closed to prevent evaporation.

Pesticide Disposal: Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal:

If Empty: Do not reuse this container. Place in trash or offer for recycling if available.

If Partly Filled: Call your local solid waste agency or (800)-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
