Lititz, PA 17543

Subject: PRIA Label Amendment – Add bed bugs and other label revisions
Product Name: Concern Diatomaceous Earth Crawling Insect Killer
EPA Registration Number: 50932-12
Application Date: February 14, 2017
Decision Number: 526879

Dear Mr. Mongiovi:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

with FIFRA section 6. If you have any questions, please contact Eric Bohnenblust by phone at (703) 347-0426, or via email at Bohnenblust.eric@epa.gov.

Sincerely,

A handwritten signature in cursive script, appearing to read "R. Gebken".

MASTER LABEL - BACK PANEL (PAGE 2 of 4)

[For 10.0 lb Bag Packaging]: Concern® Diatomaceous Earth Crawling Insect Killer is intended for application with a hand duster, power duster, or similar means of application to areas where listed crawling insects are found. Apply Concern® Diatomaceous Earth Crawling Insect Killer to cracks and crevices with the use of a bulbous duster or other suitable equipment. Apply lightly and uniformly.

Indoor Use: For control of **Earwigs, Millipedes, Centipedes, Silverfish, Crickets, Cockroaches, and Ants (except Carpenter, Fire, Harvester, and Pharaoh Ants):** Lightly coat a thin layer of Concern® Diatomaceous Earth Crawling Insect Killer in areas where these pests are found or may hide, such as cracks and crevices, behind and beneath refrigerators, cabinets, stoves, garbage cans, and in and around sewer pipes and drains, window frames, and in attics and basements. Dust insects directly if possible. Apply no more than once a week.

Fleas: Treat floor and bedding in and around pets' sleeping quarters. Treat surrounding cracks and crevices, baseboards, behind pictures, carpeting, and wherever fleas are suspected.

Carpet Beetles: Dust along baseboards, carpet edges, under carpeting, furniture, in closets and shelving where these insects are seen or suspected.

Bedbugs: Take bed apart. Dust into joints and channels. If hollow, such as square or round tubing, see that the interior of the framework is well dusted. Mattresses should be dusted, especially tufts, folds and edges. Picture frame molding and all cracks and crevices in the room should be treated.

Outdoor Use: For control of **Ants (except Carpenter, Fire, Harvester, and Pharaoh Ants), Cockroaches, Earwigs, Crickets, Slugs, Millipedes, Centipedes and other Listed Crawling Insects:** Lightly coat a thin layer of Concern® Diatomaceous Earth Crawling Insect Killer in areas where these insect pests are found such as patios, window and door frames and outdoor sills. Dust around foundations, along ant trails, and around sewer pipes and drains. Apply no more than once a week.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

PESTICIDE STORAGE: Store in a cool dry area away from heat or open flame and out of reach of children and pets.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. **If Empty:** Place in trash or offer for recycling if available. **If Partly Filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
