 <p>U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Biopesticides and Pollution Prevention Division (7511C) 1200 Pennsylvania Avenue NW Washington, DC 20460</p> <p>NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> Registration <input type="checkbox"/> Reregistration (under FIFRA, as amended)</p>	EPA Reg. Number: 50932-17	Date of Issuance: 12-20-05
	Term of Issuance: Conditional	Name of Pesticide Product: Animal Repellent Concentrate
	Name and Address of Registrant (include ZIP Code): Woodstream Corporation 69 N. Locust Street, Litiz, PA 17543	
<p>Note: Changes in labeling data for this pesticide must be submitted to and accepted by the Biopesticides and Pollution Prevention Division of the EPA. Changes to the label must refer to the above EPA registration number.</p> <p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.</p> <p>Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>The registration application referred to above, submitted in connection with registration under § 3(c)(7)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you do the following terms and conditions.</p> <ol style="list-style-type: none"> 1. Submit/cite all data required for registration of your product under FIFRA § 3(c)(5) when the Agency requires all registrants of similar products to submit such data. 2. This registration is registered under FIFRA § 3(c)(7)(C) because of the outstanding product specific data. Submit the following data within the specified timeframes: <ol style="list-style-type: none"> a. An analytical method and a 5 batch analysis for the direct or indirect determination and enforcement of the Oil of black pepper content of this product within one year from the date that registration is granted for this product b. The results of a one storage stability study and corrosion characteristics must be submitted within one year from the date that registration is granted for this product. 		
Signature of Approving Official:  (See second page for signature)	Date: 12-20-05	

EPA Form 8570-6

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wear safety glasses, shoes, socks, gloves, long-sleeved shirt and long pants. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals.

FIRST AID	
If on skin or clothing:	<ul style="list-style-type: none"> - Take off contaminated clothing. - Rinse skin immediately with plenty of water for 15-20 minutes. - Call a poison control center or doctor for treatment advice.
If in eyes:	<ul style="list-style-type: none"> - Hold eye open and rinse slowly and gently with water for 15-20 minutes. - Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. - Call a poison control center or doctor for treatment advice.
<p>Have the product container or label with you when calling a poison control center or doctor, or going for treatment. Contact 1-800-858-7378 for emergency medical treatment advice.</p>	

ENVIRONMENTAL HAZARDS

For terrestrial uses: Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment wash waters.

READ ENTIRE LABEL AND UNDERSTAND ALL DIRECTIONS BEFORE USING THIS PRODUCT!

GENERAL INFORMATION

Animal Repellent Concentrate contains active ingredients that irritate animals when they touch or taste the product. This product can be used to effectively repel dogs, cats, ground hogs, squirrels, skunks and raccoons from treated areas for up to 30 days. This product repels by odor and taste. **SHAKE WELL BEFORE MIXING!** This product can be applied using all types of hand or power sprayers. Read and carefully follow the instructions for the type of sprayer you use. Promptly clean all equipment after each use. Do not mix or apply this product with equipment that has been used for herbicide applications. Properly dilute and spray Animal Repellent Concentrate on all areas to be protected. This product will stain structural surfaces and painted surfaces. Do not apply to siding, roofing, decks, fences, driveways, painted surfaces (including automobiles), sidewalks or other structural material and architectural surfaces. Do not allow spray to drift onto structural surfaces in the areas of application.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS

For outdoor use only. Do not apply to food or feed crops. Apply only to dry surfaces, and only under conditions favoring prompt drying of spray (lightly breezy), mild dry weather with low relative humidity.

MIXING AND DILUTION DIRECTIONS:

Do not use kitchen utensils for measuring!

Keep measuring utensils with pest control products out of reach of children.

Mix before using: Animal Repellent Concentrate must be mixed with water to produce ready-to-use spray. Before mixing, read and understand mixing instructions.

Use promptly after mixing: Do not store mixed solution longer than one day. Carefully determine the quantity required for immediate application.

1. Before diluting, thoroughly shake or stir contents of concentrate container to completely re-suspend all solids.
2. In a suitable mixing container, mix 1 part concentrate with 7 parts warm water (16 fl. oz. of concentrate makes 1 gallon of spray when mixed with water).
3. Pour dilute spray into sprayer and use promptly. Stir or shake the spray immediately before use and frequently during use to prevent settling in bottom of sprayer. Run agitator on large tank sprayers. If sprayer is to be re-used, clean with cold water immediately after use.

Seal tightly: If saving part of unmixed concentrate for use later, close container tightly to prevent evaporation.

APPLICATION DIRECTIONS

Landscaped Areas: To discourage digging by cats, dogs, raccoons, skunks and squirrels in landscaped areas, apply product to soil, or existing mulch for border protection. Use spray setting. 1 gallon of spray will treat approximately 500 square feet (0.25 Fl. Oz. per square ft). Reapply every 30 days or as needed when repellency begins to fade. More frequent re-application may be necessary during periods of heavy, prolonged rainfall.

Lawns and Gardens: To discourage unwanted dogs, cats, raccoons, squirrels, groundhogs and skunks from entering lawns or home gardens, spray a five-foot wide perimeter around lawn or garden for border protection. Use spray setting. Apply 0.10 oz. (approximately 3 full trigger sprays) per square foot. Reapply every 30 days or as needed when repellency begins to fade. More frequent re-application may be necessary during periods of heavy, prolonged rainfall.

Ornamental Plant Treatment: To discourage damage to ornamental and landscape plantings by dogs, cats, groundhogs and squirrels, treat plants directly using spray setting. Spray plants to the point of runoff. Apply product to soil around plants for additional protection. Apply product to the bark at the base of small trees & shrubs to prevent girdling by rabbits & voles. Apply 0.10 oz. (approximately 3 full trigger sprays) per square foot. Reapply every 30 days or as needed when repellency begins to fade. More frequent re-application may be necessary during periods of heavy, prolonged rainfall. **NOTE:** Do not apply product directly to new transplants, newly rooted cuttings or plants stressed by drought. Avoid application to plants when temperature exceeds 90° F. Before full-scale application to plants, test spray an inconspicuous area and wait 24 hours to observe for damage.

(BACK PANEL)

Garbage Bags/Garbage Containers: To reduce frequent tearing of garbage bags by dogs, cats, squirrels and raccoons; spray entire bag thoroughly, including the bottom. Use spray setting. Apply 0.10 oz. (approximately 3 full trigger sprays) per square foot. For optimum protection, treat garbage bags within 72 hours of pickup. Treat garbage containers and containment areas (dumpsters) using spray setting.

Bird Feeders: To discourage the raiding of bird feeders by squirrels, wet area around bird feeder, including pole, branches and tree trunks in close proximity to feeder. The bird feeder can be sprayed directly to enhance repellency. To test for staining of wooden or plastic birdfeeders, test spray an inconspicuous area prior to treating entire feeder. Use spray setting for feeder and stream setting for all other areas. Apply 0.10 oz. (approximately 3 full trigger sprays) per square foot. Reapply every 30 days or as needed when repellency begins to fade. More frequent application may be necessary during periods of heavy, prolonged rainfall.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

PESTICIDE STORAGE: Store only in a cool, dry area inaccessible to children and pets. Protect from freezing and heat. Keep container tightly closed to prevent evaporation.

PESTICIDE DISPOSAL: Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL:

If Empty: Do not reuse this container. Place in trash or offer for recycling if available.

If Partly Filled: Call your local solid waste agency or (800)-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
