PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS

CAUTION

Irritant to skin, may be absorbed through skin. Avoid contact with skin, eyes or clothing. Avoid breathing mist. Cover or remove exposed foods. Avoid contamination of cooking utensils and food preparation surfaces. Remove plants and cover fish aquariums before spraying.

FIRST AID

In case of contact, immediately flush skin and eyes with plenty of water for at least 15 minutes. Get medical attention for irritation or burns.

PHYSICAL AND CHEMICAL HAZARDS: Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator.

DIRECTIONS FOR USE

It is a violation of the Federal law to use this product in a manner inconsistent with its labeling.

For use in and around hotels, motels, homes, greenhouse and lawns, food handling establishments, packaging and processing plants, seed houses, commercial, industrial, office, institutional and storage buildings, milk handling areas of milk plants, milk storage rooms, egg processing plants, supermarkets, restaurants, bottling plants, canneries, flour and feed mills, bakeries, boats, ship cabins and hospitals. In hospitals, patients should be removed prior to treatment. Also for use in dog kennels and horse stables. In horse stables, not for application if horses will be used for food.

In food handling areas, food should be removed or covered previous to treatment. All food processing surfaces should be covered or thoroughly cleaned before using. Apply only when facility is not in operation.

DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.

Remove protective cap. Aim spray opening away from person. Push button to spray.

For household and industrial use, indoors and around premises.

INDOORS To kill wasps, hornets, yellow jackets, bees: Application should be made late in the evening when insects are at rest. Spray liberally into hiding and breeding places, particularly under rafters, contacting as many insects as possible. Saturate areas in and around nest openings. Repeat as necessary.

INDOORS To kill ants, cockroaches, spiders, earwigs, grasshoppers, sawbugs, crickets, beetles, silverfish, centipede and millipede: Direct spray to contact these insects in cracks and crevices in floors, baseboards, around pipes, behind cabinets, and other harborages. Spray these infested areas until thoroughly wet. Repeat as necessary.

INDOORS To kill ants: Spray directly on insects, and around window frames, doors, ant trails and holes.

INDOORS To kill spiders: Spray directly on these pests and use repeated applications to the webbing and all cracks and crevices which harbor spiders.

OUTDOORS: Apply as a contact spray. Spray directly on insects. Aim spray opening away from person. Avoid spraying plants or turf except to spray infested areas.

Ants: Same as directed above for indoor use.

Wasps, hornets, yellow jackets, bees: Same as directed for indoor use. Aim spray at nest openings, trees, bushes, under leaves, chimneys, cracks and crevices to saturate in and around nest openings. Kill insects as many as possible. Repeat as necessary.

Earwigs, sawbugs, crickets, beetles, silverfish, centipede and millipede: Apply as a contact spray as for indoor use.
